Costumes Et Textiles En Gaule Romaine:

Costumes et textiles en Gaule romaine Geneviève Roche-Bernard, Alain Ferdière, 1993 Synthèse claire et vivante illustrée d'une riche iconographie qui nous fait découvrir les modes et les traditions vestimentaires, les ateliers de production et les grands circuits commerciaux de cinq siècles de notre histoire

Making Textiles in pre-Roman and Roman Times Margarita Gleba, Judit Pásztokei-Szeőke, 2013-10-30 Textile production is an economic necessity that has confronted all societies in the past. While most textiles were manufactured at a household level, valued textiles were traded over long distances and these trade networks were influenced by raw material supply, labour skills, costs as well as by regional traditions. This was true in the Mediterranean regions and **Making Textiles in pre-Roman and Roman times** explores the abundant archaeological and written evidence to understand the typological and geographical diversity of textile commodities. Beginning in the Iron Age, the volume examines the foundations of the textile trade in Italy and the emergence of specialist textile production in Austria, the impact of new Roman markets on regional traditions and the role that gender played in the production of textiles. Trade networks from far beyond the frontiers of the Empire are traced whilst the role of specialized merchants dealing in particular types of garment and the influence of Roman collegia on how textiles were produced and distributed are explored. Of these collegia, that of the fullers appears to have been particularly influential at a local level and how cloth was cleaned and treated is examined in detail using archaeological evidence from Pompeii and provincial contexts to understand the processes behind this area of the textile trade

Textile Production in Pre-Roman Italy Margarita Gleba, 2008-11-05 Older than both ceramics and metallurgy, textile production is a technology which reveals much about prehistoric social and economic development. This book examines the archaeological evidence for textile production in Italy from the transition between the Bronze Age and Early Iron Ages until the Roman expansion 1000-400 BCE and sheds light on both the process of technological development and the emergence of large urban centres with specialised crafts. Margarita Gleba begins with an overview of the prehistoric Apennine peninsula which featured cultures such as the Villanovans and the Etruscans and was connected through colonisation and trade with the other parts of the Mediterranean. She then focuses on the textiles themselves: their appearance in written and iconographic sources, the fibres and dyes employed, how they were produced and what they were used for. We learn, for instance, of the linen used in sails and rigging on Etruscan ships and of the complex looms needed to produce twill. Featuring a comprehensive analysis of textiles, remains and textile tools from the period, the book recovers information about funerary ritual, the sexual differentiation of labour: the spinners and weavers were usually women and the important role the exchange of luxury textiles played in the emergence of an elite. Textile production played a part in ancient Italian society's change from an egalitarian to an aristocratic social structure and in the emergence of complex urban communities

Textiles and Gender in Antiquity Mary Harlow, Cecile Michel, Louise Quillien, 2020-11-12 This volume looks at how the issues of textiles and gender intertwine across three

millennia in antiquity and examines continuities and differences across time and space with surprising resonances for the modern world The interplay of gender identity textile production and use is notable on many levels from the question of who was involved in the transformation of raw materials into fabric at one end to the wearing of garments and the construction of identity at the other Textile production has often been considered to follow a linear trajectory from a domestic female activity to a more commercial or industrial male centred mode of production In reality many modes of production co existed and the making of textiles is not so easily grafted onto the labour of one sex or the other Similarly textiles once transformed into garments are often of unisex shape but worn to express the gender of the wearer As shown by the detailed textual source material and the rich illustrations in this volume dress and gender are intimately linked in the visual and written records of antiquity The contributors show how it is common practice in both art and literature not only to use particular garments to characterize one sex or the other but also to undermine characterizations by suggesting that they display features usually associated with the opposite gender

Les Gaules : Provinces des Gaules et Germanies, Provinces Alpines Alain Ferdière, 2005-10-21 La Gaule n'est pas la France il ne s'agit pas ici en quelque sorte du premier volume d'une histoire de France mais d'un élément d'une histoire régionale des provinces de l'Empire romain Concernant les Gaules les Germanies et les Provinces Alpines l'aire géographique prise en compte touche plusieurs pays d'Europe Occidentale outre la France et l'on a souhaité traiter ces territoires depuis pratiquement leur apparition dans l'histoire celle des textes du I^{er} siècle av J C et en tout cas au II^e siècle av jusqu'à la fin du Ve siècle ap J C et la chute de l'Empire romain d'Occident Pourquoi une nouvelle histoire des Gaules La monumentale Histoire de la Gaule de Camille Jullian date de près d'un siècle et n'a été que partiellement remplacée depuis Il était nécessaire d'opérer un dépoussiérage notamment en matière d'historiographie l'histoire de ces contrées restant souvent encore empreinte de lourds préjugés idéologiques notamment nationalistes En termes de recherche historique de nombreuses relectures des documents textuels et pictographiques ont été effectuées ces dernières décennies et offrent des éclairages nouveaux qu'il importe de prendre en compte aujourd'hui en ce début du XXI^e siècle Ce corpus de données s'est aussi bien sûr enrichi de certaines découvertes nouvelles et surtout celles concernant l'archéologie qui ont dans maints domaines depuis les années 1970 quasiment révolutionné nos connaissances sur les Gaules quant à ses villes ses campagnes son économie On a donc voulu offrir aux chercheurs et aux étudiants un aperçu assez complet des événements historiques qui ont marqué ces territoires au cours de ces dix siècles mais aussi brosser des tableaux des particularités de cette culture gauloise puis gallo romaine plusieurs tapes de cette histoire un groupe de provinces avec ses spécificités fortes mais somme toute une pièce parmi d'autres chacune avec son originalité du Monde romain Alain Ferdière est aujourd'hui professeur d'histoire ancienne et archéologie Antiquités Nationales maître de l'Université de Tours Il se considère avant tout comme un archéologue discipline qu'il pratique depuis plus de quarante ans sur le terrain Ses travaux et recherches portent essentiellement sur la Gaule romaine notamment dans le domaine rural et celui de l'économie

The Toga and Roman Identity Ursula Rothe, 2019-12-12 This book traces the toga's history from its origins in the Etruscan garment known as the tebenna through its use as an everyday garment in the Republican period to its increasingly exclusive role as a symbol of privilege in the Principate and its decline in use in late antiquity. It aims to shift the scholarly view of the toga from one dominated by its role as a feature of Roman art to one in which it is seen as an everyday object and a highly charged symbol that in its various forms was central to the definition and negotiation of important gender, age, and status boundaries as well as political stances and ideologies. It discusses the toga's significance not just in Rome itself but also in the provinces where it reveals ideas about cultural identity, status, and the role of the Roman state. The Toga and Roman Identity shows that by looking in detail at the history of Rome's national garment we can gain a better understanding of the complexities of Roman identity for different groups in society as well as what it meant at any given time to be Roman.
