What Are the Arts and Sciences? Dan Rockmore, 2017-06-06 What constitutes the study of philosophy or physics What exactly does an anthropologist do or a geologist or historian In short what are the arts and sciences While many of us have been to college and many aspire to go we may still wonder just what the various disciplines represent and how they interact What are their origins methods applications and unique challenges What kind of people elect to go into each of these fields and what are the big issues that motivate them Curious to explore these questions himself Dartmouth College professor and mathematician Dan Rockmore asked his colleagues to explain their fields and what it is that they do The result is an accessible entertaining and enlightening survey of the ideas and subjects that contribute to a liberal education The book offers a doorway to the arts and sciences for anyone intrigued by the vast world of ideas *Mothership* Greg Wrenn, 2024-03-26 A dazzling evidence based account of one man's quest to heal from complex PTSD by turning to endangered coral reefs and psychedelic plants after traditional therapies failed and his awakening to the need for us to heal the planet as well Professor Greg Wrenn likes to tell his nature writing students The ecological is personal and the personal is ecological What he's never told them is how he's lived out those correspondences to heal from childhood abuse at the hands of his mother Weaving together memoir and cutting edge science *Mothership* is not just a queer coming of age story It's a deeply researched account of how coral reefs and a psychedelic tea called ayahuasca helped Greg heal from complex PTSD a disorder of trust which makes the very act of bonding with someone else panic inducing From the tide pools in Florida where he grew up to Indonesia's Raja Ampat archipelago and the Amazon rainforest this is his search for wholeness when talk therapy and pharmaceuticals did little to help Along the way as his ecological conscience wakes up he takes readers underwater to the last pristine reefs on earth and into the psyche Written with prophetic urgency *Mothership* ultimately asks if doses of nature will be enough to save us before it's too late *Biology in Numbers* Flindt, 1976-01-01
