Christopher Benninger

Christopher Benninger Architecture Modern:

A Concise History of Modern Architecture in India Jon T. Lang, 2002 In Lucid Language That Speaks To Laymen And Architects Alike This Book Provides A History Of Twentieth Century Architecture In India It Examines In Detail The Early Influences On Indian Architecture Both Of Movements Like The Bauhaus As Well As Prominent Individuals Like Habib Rehman Jawaharlal Nehru Frank Lloyd Wright And Le Corbusier Christopher Benninger Rosa Maria Falvo, Ramprasad Akkisetti, 2015 American born and raised Christopher Benninger is one of India's most highly decorated architects His career spans four decades in prominent roles as an institution builder professor United Nations and World Bank consultant advising many governments pioneering expert in social planning and low cost housing for the less privileged in Jamnagar Chennai Hyderabad and several other cities and master architect designing many modern institutions nurturing development in India His award winning projects include the Mahindra United World College of India Samundra Institute of Maritime Studies YMCA Camp Site at Nilshi Suzlon One Earth and his own studio residence India House in Pune Graduating in architecture from Harvard University where he later taught Benninger completed further studies in urban planning at MIT and settled in India in 1971 founding the School of Planning in Ahmedabad where he remains an active distinguished professor His name appears alongside Geoffrey Bawa Charles Correa and Balkrishna Doshi as one of the few recipients of the Great Master Architect Award in India presented every three years **Great Windows in Modern Architecture** Kevin

Adams, 2024-03-29 Windows are moments in modern architecture where we look to ascertain elegance technical expression and material language or to capture a certain atmosphere A window opening is as much an interval and an opportunity as it is a device for admitting light air or views it is simultaneously a physical aperture but also a philosophical opening of collaboration and reflection In order to understand the language of a building we might look to the detail of the window But what does this mean and why does modern architecture invest so much expression in the window This book explores how the act of detailing and situating windows in buildings is a key proponent in the language of architecture which both informs and works with the contingencies of design and construction It investigates 18 case studies in depth using painstakingly drawn details and vivid photographs in full colour to define what makes these windows great and how each window is situated within both its technical and philosophical context and as an overall development of modern architecture Case studies include the work of Walter Gropius Mies van der Rohe Pierre Chareau Frank Lloyd Wright Alvar Aalto Carlo Scarpa Le Corbusier Stirling and Gowan Raili and Reima Pietil Louis Kahn Peter Womersley Miralles Pin's Steven Holl Glen Murcutt and O'Donnell Tuomey **Letters to a Young Architect** Christopher Benninger, 2013-11-02 For the first time this classic is available in a richly illustrated edition It is a must read for India freaks and serious architects everywhere the Second Edition of India's only architectural book ever to rank in the Top Ten Best Selling Non-fiction Books entitled Letters to a Young Architect is now appearing with one hundred and thirty two colour and black and white illustrations An all inclusive Index

makes it easy for readers to locate people places and ideas they wish to study The author Christopher Charles Benninger is respected as one of India s leading architectural theorists and practitioners He has won the Great Master s Award the Architect of the Decade Award the Indian Institute of Architects Award the American Institute of Architects Architectural Record Business Week Award and many more This book was awarded the Best Architectural Book of 2012 by Archidesign The Chinese translation was released in January 2013 and the Gujarati version in November 2013 The book s narrative is a poetic and sensitive memoir of a stranger s adventures in Asia and his transformation in India The book debates concerns about architectural theory design and contemporary urban planning Through the medium of written discourses and talks presented over the past decade a lucid collection of essays emerge that testify the commonality of mankind s condition This is a collection of autobiographical narratives and ideas reflecting a journey of the spirit from America and Europe to India and the philosophical considerations that matured from these experiences His travels are not only stories of the dusty roads he traveled on but also of the passions and emotions of those he met along the way Letters to a Young Architect reflects on the role and direction of architecture in framing a new man and a new society in the new millennium Benninger notes his encounters with gurus like Kevin Lynch Charles and Ray Eames Jose Luis Sert Walter Gropius Arnold Toynbee and Buckminster Fuller and the manner in which their personal passion for humanity shaped the lives of others Benninger is a strong believer in tradition in gurus and in students and in a lineage of values ideals principles and of practices which have been matured from generation to generation He is concerned with the education of architects the nature of architecture itself and the role of urbanism and planning in the creation of a new society The role of Indian masters like Balkrishna Doshi who guided him in his search is a touching tribute to the Indian Guru Shishya tradition Christopher Benninger prepared the Capital Plan for Thimphu Bhutan for six cities in Sri Lanka and many towns and cities across Bhutan India and Sri Lanka His well known architectural works include the Suzlon One Earth the United World College of India the Samundra Institute of Maritime Studies the Indian Institute of Management at Kolkata the Centre for Development Studies and Activities in Pune and the Kirloskar Institute of Advanced management Studies in Pune He founded the School of Planning at CEPT University in Ahmedabad India after a stint teaching at the Graduate School of Design at Harvard University where he studied architecture

Livable Cities from a Global Perspective Roger Caves,Fritz Wagner,2018-05-11 Livable Cities from a Global Perspective offers case studies from around the world on how cities approach livability They address the fundamental question what is considered livable The journey each city has taken or is currently taking is unique and context specific There is no such thing as a one size fits all approach to livability Some cities have had a long history of developing livability policies and programs that focus on equity economic and environmental concerns while other cities are relatively new to the game In some areas government has taken the lead while in other areas grassroots activism has been the impetus for livability policies and programs The challenge facing our cities is not simply developing a livability program We must

continually monitor and readjust policies and programs to meet the livability needs of all people The case studies investigate livability issues in such cities as Austin Texas Helsinki Finland London United Kingdom Warsaw Poland Tehran Iran Salt Lake City United States Rio de Janeiro Brazil Sydney Australia and Cape Town South Africa The chapters are organized into such themes as livability in capital city regions livability and growth and development livability and equity concerns livability and metrics and creating livability Each chapter provides unique insights into how a specific area has responded to calls for livable cities In doing so the book adds to the existing literature in the field of livable cities and provides policy makers and other organizations with information and alternative strategies that have been developed and implemented in an effort to become a livable city

Morphogenesis Mani Rastogi, Sonali Rastogi, 2016-12-31 This outstanding monograph delves into an exciting selection of esteemed works by Morphogenesis one of India's most creative architecture and design firms and a world leader in net zero energy and sustainable design Another successful addition to IMAGES Master Architect Series this richly illustrated book combines stunning imagery with comprehensive studies outlining the firm's strong philosophical discourse across a vast range of typologies residential institutional commercial hospitality offices interiors public and master planning Morphogenesis reinterprets India's architectural roots and consistently employs passive design solutions for a unique contextual language The Morphogenesis journey is a reflection of a contemporary Indian perspective within the global context incorporating an inspired forward thinking vision while respectfully referencing the spirit of traditional Indian subcontinental architecture in innovative forms This is a must have book for those looking to understand work at the vanguard of sustainable architecture

Sustainable Societies: Transition from theories to practice Sethi, Mahendra, 2022-01-17 The national economic situation rapidly changing societies increasing environment pollution amidst global warming around us are some of the most burning topics in day to day discussions news and scholarly discourses What we see are only the consequences of protracted actions policies and decisions The issues associated with these phenomena are highly complex that challenge a direct interpretation of their root causations indications results and long term impacts For instance is the issue of managing natural resources for industry business operations within a country an economic problem Or is it an ecological one Or rather a social one Could it be resolved with theories and techniques of either of these fields Well the issue and its redressal requires a combination of all the three disciplines And yet actions to integrate all of these fields have typically by passed one or more The framework that has over the years most commonly explained the convergence of different spheres of disciplinary knowledge has been sustainability At the same time its pursuit in practice the dominant public perception political agendas and the mainstream media remains elusive In absence of a critical theory on sustainable societies the contemporary development model is misinformed by vague notions of greening green growth eco development ecotourism smart cities etc largely steered by corporates and vested business groups The contemporary societies exist and continue to develop without genuine knowledge about sustainability that lies fragmented in its

contributing disciplinary streams This book unfolds the inherent dilemmas contradictions and paradoxes within the current sustainability paradigm to form a rather nuanced and inside view of what constitutes sustainability and how it could be realized with socio technical institutional policy and management solutions In the process the research comprehensively reviews about a hundred environmental social and economic theories to deliberate on the way forward Considering that sustainability is a politico economic and socio cultural challenge the transitions need to be culturally diverse and inter generational requiring infusion of fresh values messaging and leadership while conserving traditional knowledge prevailing institutions The book culminates with a transition architecture bearing policy recommendations for governing without governmentality with plausible regulatory instruments capacitating mechanisms planning and voluntary measures that can be implemented in practice Die nationale wirtschaftliche Situation sich schnell ver ändernde Gesellschaften die zunehmende Umweltverschmutzung inmitten der globalen Erw ärmung um uns herum sind einige der brennendsten Themen in t glichen Diskussionen Nachrichten und wissenschaftlichen Diskursen Was wir sehen sind nur die Folgen langwieriger Handlungen Richtlinien und Entscheidungen Die mit diesen Ph nomenen verbundenen Fragen sind hochkomplex die eine direkte Interpretation ihrer Ursachen Indikationen Ergebnisse und langfristigen Auswirkungen herausfordern Ist zum Beispiel die Bewirtschaftung nat rlicher Ressourcen f r Industrie und Gesch ftsbetriebe innerhalb eines Landes ein wirtschaftliches Problem Oder ist es ein kologisches Oder eher ein soziales K nnte es mit Theorien und Techniken eines dieser Gebiete gel st werden Nun das Problem und seine Abhilfe erfordert eine Kombination aller drei Disziplinen Und dennoch haben Ma nahmen zur Integration all dieser Felder in der Regel eines oder mehrere umgangen Der Rahmen der im Laufe der Jahre am h ufigsten die Konvergenz verschiedener Bereiche des disziplin ren Wissens erkl rt hat war Nachhaltigkeit Gleichzeitig bleibt ihre Verfolgung in der Praxis die vorherrschende ffentliche Wahrnehmung die politischen Agenden und die Mainstream Medien schwer fassbar In Ermangelung einer kritischen Theorie zu nachhaltigen Gesellschaften wird das zeitgen ssische Entwicklungsmodell durch vage Vorstellungen von kologisierung gr nem Wachstum ko Entwicklung kotourismus Smart Cities usw die gr tenteils von Unternehmen und Konzernen gesteuert werden falsch informiert Die zeitgen ssischen Gesellschaften existieren und entwickeln sich weiter ohne echtes Wissen ber Nachhaltigkeit das in seinen disziplin ren Str mungen zersplittert ist Dieses Buch entfaltet die inh renten Dilemmata Widerspr che und Paradoxien innerhalb des aktuellen Nachhaltigkeitsparadigmas um eine eher nuancierte Innenansicht dessen zu schaffen was Nachhaltigkeit ausmacht und wie sie mit soziotechnischen institutionellen politischen und Managementl sungen realisiert werden k nnte Dabei berpr ft die Forschung umfassend etwa hundert Umwelt Sozial und Wirtschaftstheorien um ber das weitere Vorgehen nachzudenken Angesichts der Tatsache dass Nachhaltigkeit eine politisch konomische und soziokulturelle Herausforderung ist m ssen die berg nge kulturell vielf ltig und generationen bergreifend sein was die Einf hrung neuer Werte Botschaften und F hrung erfordert w hrend traditionelles Wissen und vorherrschende Institutionen erhalten bleiben Das Buch gipfelt in einer

bergangsarchitektur mit Politikempfehlungen für ein Regieren ohne Gouvernementalität mit plausiblen Regulierungsinstrumenten kapazitiven Mechanismen Planungen und in der Praxis umsetzbaren freiwilligen Maßnahmen

Housing for All A.K. Jain, This book titled *Housing for All Design Construction and Management* by A K Jain is a comprehensive assessment of the housing situation in India which not only traces the path taken by governments so far but also outlines a roadmap for the future The book begins with an overview of the housing scenario in India It discusses various housing programmes and draws a distinction between affordable housing and adequate housing The book also draws particular attention to housing issues of special groups such as the elderly disabled homeless migrant and transit workers students and single women There is also a discussion on the issue of social and physical infrastructure The book notes that housing units alone do not constitute housing but infrastructure plays a critical role in the occupancy of housing The question of reducing the cost of housing has been vexatious for long Jain deals with this issue in detail and suggests various low cost technologies and house building systems for making housing more affordable Another issue is that of rental housing Jain suggests that giving a boost to rental housing through a slew of measures can go a long way in making housing more accessible and bring vacant housing into the market

Archshelf - Sustainable Urban Living and Upcoming Trends in Architecture, Archshelf Magazine brings together a global community of architecture and design professionals dedicated to reimagining our cities for a greener tomorrow We embark on a journey through the visionary world of sustainable architecture with a motive to inspire provoke and transform From the bustling streets of Tokyo to the serene parks of Copenhagen cities worldwide are embracing smart technologies and green practices to create urban spaces that are not only more efficient but also more livable Through a collection of thought provoking articles interviews and inspiring case studies we explore the latest trends and emerging technologies transforming urban landscapes Sustainability is no longer about doing less harm It's about doing more good Jochen Zeitz Throughout this issue we celebrate the power of design to cultivate connections connections with nature with our communities and with ourselves We had the privilege of sitting with some of the brightest minds in the industry The cover story takes you to the journey of Reimagining Architecture for a Greener Future In our feature interview with architect Zafar Chaudhary we gain invaluable insights into their design philosophy We also introduce you to the furniture design world's rising star Joana Santos Barbosa from Portugal whose fresh perspectives and innovative approach towards furniture and interior design promise to redefine the spaces we inhabit Discover how young architects are pioneering the development of Net Zero Energy Residences setting a new standard for sustainable living Have you heard that Algae may play a crucial role in the search for green energy solutions We also spotlight some remarkable projects like the Cocoon Resorts in Mexico and the Bosco Verticale in Milan and stands as a testament to the potential of urban biodiversity As technology continues to evolve at an unprecedented pace we explore the Future Trends in AI and Architecture These trends are not just shaping the future they're making it more accessible and exciting I hope these pages

bring you inspiration to think boldly create thoughtfully and build sustainably Together we can build cities that are not only resilient to climate change but also thriving ecosystems for generations to come Architecture + Design ,2004-07
