Creativity And Humour In Occupy Movements Intellectual Disobedience In Turkey And Beyond:

Creativity and Humour in Occupy Movements A. Yalcintas, 2015-02-03 This volume offers scholarly perspectives on the creative and humorous nature of the protests at Gezi Park in Turkey 2013 The contributors argue that these protests inspired musicians film makers social scientists and other creative individuals out of a concern for the aesthetics of the protests rather than seizure of political power

Media Representations of the Cultural Other in Turkey Alparslan Nas, 2018-05-08 A fresh study that confirms the existence of multiple peripheries and its others in Turkish society and how dominant centrist media represented these differences in film and television discourse The use of Mardin s center periphery concept for the analyses of films ads and cartoons is brilliant This is a timely project as scholarly interest in Turkey has increased exponentially since 2013 This project is key to understanding the roots of a media politics in contemporary Turkey Murat Akser Ulster University UK Alparslan Nas seminal work disrupts the notion of Turkish identities as fixed and stable He challenges the center secular modern Western peripheral conservative religious binary by critically examining how a cultural other is constructed and performed through the media in Turkey Nas analysis offers a much needed new lens and approach to understanding Turkey s complex social and political landscape Kathleen Cavanaugh National University of Ireland Galway Ireland This book is an important contribution to the scholarship on Turkey s cultural and political dynamics facilitating a discussion on the recent depictions of the cultural other in the media Turkey s modern history has been characterized by a particular tension between the social classes occupying the center of society while the bureaucratic elite are represented as modern secular and westernized the peripheral communities are portrayed as conservative religious or non Turkish This book facilitates a timely intervention to problematize this possible perception and to point at the complex dynamics of center periphery relations through the representation of the cultural other in film television advertisements and cartoons which have all been produced by different social classes Ultimately *Media Representations of the Cultural Other in Turkey* argues that the notions of the center and periphery do not signify stable positions rather each social agent imagines themselves at the center the cultural other at their periphery providing a crucial tool for the realization of their own identity

Conventional Versus Non-conventional Political Participation in Turkey Cristiano Bee, Ayhan Kaya, 2018-12-07 This book focuses on the emergence of different forms of civic and political activism in Turkey It has taken into account different components of active citizenship specifically looking at the development of civic and political forms of activism that bridge the realms of conventional and non conventional participation Focusing on the effects of the 2013 Gezi Park protests which originated in Istanbul but spread throughout the country this book reflects on how this experience might re orient current on civic and political participation in Turkey Specifically focusing on the main dynamics of non conventional forms of civic and political activism this volume attempts to understand the impact of non conventional forms of political participation on voting behaviour The internal domestic conditions of the country as well as its role in the international arena have dramatically changed since 2013 and are

constantly evolving due to the domestic societal and political cleavages and the regional problems in the Middle East Yet the papers in the book reflect upon the significance of occupygezi nowadays demonstrating not only its importance in questioning the link between the patrimonial state and its citizens but also for stimulating participatory behaviours The chapters originally published as a special issue in Turkish Studies

In the Aftermath of Gezi Oscar Hemer,Hans-Åke Persson,2017-09-18 This edited volume addresses various aspects of social and political development in Turkey and the latter's role within a global context Paradigmatically and theoretically it is situated in the realm of communication and for social change The chapters thread together to present a fresh and innovative study that explores an array of issues related to the Gezi protests and their aftermath by scholars and activists from Scandinavia Turkey and India Through its thorough analysis of the government's repressive policy and the communication strategies of resistance during the protests as well as in the dramatic on going aftermath the volume has wide international and interdisciplinary appeal suitable for those with an interest in globalization communication and media politics and social change

Social Media and Politics in Turkey , Erkan Saka,2019-11-20 This book focuses on media and zeroes in some critical and oppositional aspects of internet usage within Turkey It does not radically challenge some works on Turkey's recent grand narrative but presents empirical and minor accounts to this However in elaborating the long history of relatively resilient and multilayered oppositional digital media networks in Turkey this book insists that an idea of authoritarian turn may be misleading as the internet communications are exposed to repressive measures and surveillance tactics from the very beginning of the country's recent past While discussing from citizen journalism practices to political trolls and from Gezi Park protests to disinformation campaigns this book pays tribute to digital activists and points out that mobilizing through digital networks can present glimmers of hope in challenging authoritarian regimes

The Routledge Handbook of Henri Lefebvre, The City and Urban Society Michael E. Leary-Owhin,John P. McCarthy,2019-11-21 The Routledge Handbook of Henri Lefebvre The City and Urban Society is the first edited book to focus on Lefebvre's urban theories and ideas from a global perspective making use of recent theoretical and empirical developments with contributions from eminent as well as emergent global scholars The book provides international comparison of Lefebvrian research and theoretical conjecture and aims to engage with and critique Lefebvre's ideas in the context of contemporary urban social and environmental upheavals to use Lefebvre's spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess Lefebvre's ideas in relation to nature and global environmental sustainability and to highlight how a Lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism The volume draws inspiration from Lefebvre's key texts The Production of Space Critique of Everyday Life and The Urban Revolution and includes a comprehensive introduction and concluding chapter by the editors The conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and

asymmetries of access to urban space Above all the book illustrates the continuing relevance of Levebvre s ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved The Handbook helps the reader navigate the complex terrain of spatial research inspired by Lefebvre In particular the Handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation It will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of Human Geography Sociology Political Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance

Rethinking Ideology in the Age of Global Discontent Barrie Axford,Didem Buhari-Gulmez,Seckin Baris Gulmez,2017-12-01 Over the last decade anti government demonstrations worldwide have brought together individuals and groups that were often assumed unlikely to unite for a common cause due to differences in ideological tendencies They have particularly highlighted the role of youth women social media and football clubs in establishing unusual alliances between far left and far right groups and or secular and religious segments of the society In this wide ranging volume the contributors question to what extent political ideologies have lost their explanatory power in contemporary politics and society This book aims to contribute to the ongoing debates about the relationship between ideology and public protests by introducing the global context that allows the comparison of societies in different parts of the world in order to reveal the general patterns underlying the global era Tackling a highly topical issue this book will be of particular interest to students and scholars of international relations social movements and globalization Intellectual Path Dependence in Economics Altug Yalcintas,2016-03-10 Is economics always self corrective Do erroneous theorems permanently disappear from the market of economic ideas Intellectual Path Dependence in Economics argues that errors in economics are not always corrected Although economists are often critical and open minded unfit explanations are nonetheless able to reproduce themselves The problem is that theorems sometimes survive the intellectual challenges in the market of economic ideas even when they are falsified or invalidated by criticism and an abundance of counter evidence A key question which often gets little or no attention is why do economists not reject theories when they have been refuted by evidence and falsified by philosophical reasoning This book explores the answer to this question by examining the phenomenon of intellectual path dependence in the history of economic thought It argues that the key reason why economists do not reject refuted theories is the epistemic costs of starting to use new theories Epistemic costs are primarily the costs of scarcity of the most valued element in academic production time Epistemic scarcity overwhelmingly dominates the evolution of scientific research in such a way that when researchers start off a new research project they allocate time between replicable and un replicable research This book is essential reading for anyone interested in the methodology philosophy and history of economics **The Politics of Culture in Turkey, Greece & Cyprus** Leonidas Karakatsanis,Nikolaos Papadogiannis,2017-03-27 Performing a political

identity usually involves more than just casting a vote For Left wingers in Turkey Greece and Cyprus countries that emerged as the only non socialist constituents of South eastern Europe after WWII political preference meant immersion to distinct ways of life to cultures in times of dictatorship or persecution the desire to find alternative ways to express themselves gave content to these cultures In times of political normality it was the echoes of such memories of precarity and loss that took the lead This book explores the intersection between the politics and cultures of the Left since the sixties in Turkey Greece and Cyprus With the use of 12 case studies the contributors expose the moments in which the Left has been claimed and performed not only through political manifestos and traditional political boundaries but also through corporeal acts discursive practices and affective encounters These are all transformed into distinct modalities of everyday life and conduct which are commemorated narrated or sung versed painted or captured in photographic images and on reels of tape By focusing on culture and performance this book highlights the complex link between nationalism and internationalism in left wing cultures and illuminates the entanglements between the ways in which left wingers experienced transitions from dictatorship to democracy and vice versa As the first book to analyse cultures and performances of the Left in the three countries The Politics of Culture in Turkey Greece and Cyprus causes a rethinking of the boundaries of political practice and fosters new understandings of the formation of diverse expressions of the Left As such it will be a valuable resource for students and scholars of cultural and social anthropology modern European history and political science

The Aesthetics of Global Protest Aidan McGarry, Itir Erhart, Hande Eslen-Ziya, Olu Jenzen, Umut Korkut, 2025-10-01 Protestors across the world use aesthetics in order to communicate their ideas and ensure their voices are heard This book looks at protest aesthetics which we consider to be the visual and performative elements of protest such as images symbols graffiti art as well as the choreography of protest actions in public spaces Through the use of social media protestors have been able to create an alternative space for people to engage with politics that is more inclusive and participatory than traditional politics This volume focuses on the role of visual culture in a highly mediated environment and draws on case studies from Europe Thailand South Africa USA Argentina and the Middle East in order to demonstrate how protestors use aesthetics to communicate their demands and ideas It examines how digital media is harnessed by protestors and argues that all protest aesthetics are performative and communicative
