Fiscal Reforms in the Middle East Ehtisham Ahmad,Abdulrazaq Al Faris,2010-01-01 This insightful book focuses on the role of fiscal policy in common markets especially in the context of the supranational constructs in the Gulf Cooperation Council comprising Saudi Arabia Kuwait Bahrain Qatar the United Arab Emirates and Oman It draws on the experience of the EU and the importance of VAT and reflects on the other main common market in Central America Although oil windfalls have opened a window of opportunity for the Gulf States at the same time they have created numerous problems In particular the uncertainty associated with periods of boom and bust in the oil market has made the formulation and implementation of sound fiscal policies a formidable task In this study the distinguished authors present the background to current fiscal reforms and address the critical challenges facing the Gulf States including the choice between consumption and saving or current needs and future requirements intra generational equity issues the pro cyclicity of fiscal policy fiscal sustainability and the prudent management of revenues from finite oil reserves They examine the case for VAT to substantially replace customs duties a significant source of non oil revenue which would be lost as a result of free trade agreements between the GCC and key trading partners They also demonstrate how an agreed design for VAT would assist in furthering economic integration and enhance trade and exports If properly sequenced VAT would have a negligible impact on both inflation and the poor and would be progressive in relation to the customs duties replaced This highly topical book will
