INSTRUCTOR'S GUIDE

CRIMINOLOGY GOES TO THE MOVIES
CLASS AND POPULAR CULTURE

Professor and author David Garland (with co-author John Irwin) has written a book that is both a primer and a guide to the field of criminology. The book is written for students and scholars alike, and it is a must-read for anyone interested in the field. The book is written in a clear and concise style, and it is filled with interesting facts and figures. The book is a great resource for anyone who wants to learn more about criminology.

By connecting criminological theories to popular films in which they are portrayed, Barber and Brown demonstrate that criminology has a life not just in the halls of academia, but also in pop culture, on the silver screen. Criminology, this book says, is not an exclusively academic pursuit, but a widespread cultural pursuit shared by nearly every creator and consumer of pop culture. While academia is criminology, it often seems equipped with popular criminology of watching the larger social context of crime, there are also elements of crime that academia tends to overlook. This translates theories into compelling narratives, and in so doing, Barber shows the emotional weight that accompanies crime, the visceral personal experiences that theory cannot grasp.

Using the context of academic criminology to unearth the hidden meaning in film, *Criminology Goes to the Movies* makes the subject more exciting and engaging for students. The result is a groundbreaking new way of looking at crime theory, wherever it appears.
