Criminal Justice Policy:

Advancing Criminology and Criminal Justice Policy Thomas G. Blomberg, Julie Mestre Brancale, Kevin M. Beaver, William D. Bales, 2016-03-10 Advancing Criminology and Criminal Justice Policy is a definitive sourcebook that is comprised of contributions from some of the most recognized experts in criminology and criminal justice policy. The book is essential reading for students taking upper level courses and seminars on crime, public policy, and crime prevention, as well as for policy makers within the criminal justice sphere. There has been a growing recognition of the importance of evidence-based criminal justice policies from criminologists, policymakers, and practitioners. Yet despite governmental and professional association efforts to promote the role of criminological research in criminal justice policy, political ideologies, fear, and the media heavily influence criminal justice policies and practices. Bridging the gap between research and policy, this book provides the best available research evidence, identifies strategies for informing policy, and offers direct policy recommendations for a number of pressing contemporary issues in criminal justice, including: Delinquency intervention programs and community crime prevention, Problem-oriented policing and the science of hot spot policing, Sentencing and drug courts, Community corrections, incarceration and rehabilitation, Mental illness, gender, aging, and indigenous communities.

U.S. Criminal Justice Policy Karim Ismaili, 2015-10-16 Revised edition of U.S. criminal justice policy 2011 U.S. Criminal Justice Policy: A Contemporary Reader Karim Ismaili, 2010-07-20 **Criminal Justice Policy** Stacy L. Mallicoat, Christine L. Gardiner, 2013-10-15 Criminal Justice Policy provides a thematic overview of criminal justice policy and its relationship to the American criminal justice system. Scholars, practitioners, and politicians continually debate the value of these policies in their evaluations of the current system. As the nature of this subject involves a host of issues including politics, public sentiment, research, and practice, the authors expertly highlight these concerns on criminal justice policy and address the implications for the overall system and society at large. This text is organized into three parts: Foundations of criminal justice policy focuses on the role of politics, best practices, and street-level bureaucracy in criminal justice policy; Criminal justice policy in action provides an analysis of fifteen different policy issues in criminal justice, such as immigration, drugs, mental health, and capital punishment. Each section begins with a basic summary of the policy, accompanied by a brief synopsis of the framing issues. This brief but informative summary draws students' attention to essential concepts and ideas, provides a roadmap for what they can expect to learn, and ensures continuity throughout the text. The text concludes with a discussion about the future directions of criminal justice policy. **Criminal Justice** James P. Levine, Michael C. Musheno, Dennis J. Palumbo, 1980 Concentrating on the conflicts of interest among criminal justice system components between the public and its perception of crime and among policymakers, this analysis promotes new public policy directions. First, an analysis of crime, criminals, and the criminal justice system provides a perspective to help distinguish myths about ideal system operation from the reality of its functioning. This conceptual framework focuses on the conflicting priorities of

private motives and public interests perceptions and misconceptions of crime theories about what constitutes a criminal and the implementation of criminal justice policy from these perceptions The workings of each of the major components of the criminal justice system are then examined with attention to the real roles and interests of the police lawyers attorneys and the defense counsel the courts and corrections Interests and goals that are prime points of conflict between these components are detailed as is the impact of these conflicts on law enforcement and crime Third four policies currently being used in the U S to deal with crime are explored deterrence rehabilitation decriminalization and diversion Attempts are made to fit each policy into its historical beginning and to highlight reasons for its emerging as an important policy each policy's assumptions about the nature of crime and the nature of criminals are discussed Finally processes for assessing policies and their impact on society and crime are presented the processes are evaluated for advantages and pitfalls Evaluations of research designed to assess policies then lead to proposals for improving criminal justice policy

Making Sense of Criminal Justice G. Larry Mays, Rick Ruddell, 2018-06 Rather than providing students with the answers *Making Sense of Criminal Justice Policies and Practices* Third Edition challenges them to think critically about how the criminal justice system deals with challenging situations like the use of force by the police and offers a framework for lively classroom discussions and debates

Criminal Justice Policy and Planning Wayne N. Welsh, Philip W. Harris, 2012-01-25 Unlike other textbooks on the subject *Criminal Justice Policy and Planning* presents a comprehensive and structured account of the process of administering planned change in the criminal justice system Welsh and Harris detail a simple yet sophisticated seven stage model which offers students and practitioners a full account of program and policy development from beginning to end The authors thoughtfully discuss the steps analyzing a problem setting goals and objectives designing the program or policy action planning implementing and monitoring evaluating outcomes and reassessing and reviewing Within these steps students focus on performing essential procedures such as conducting a systems analysis specifying an impact model identifying target populations making cost projections collecting monitoring data and performing a meta analysis In reviewing these steps and procedures students can develop a full appreciation for the challenges inherent in the process and understand the tools that they require to meet those challenges To provide for a greater understanding of the material the text uses a wide array of real life case studies and examples of programs and policies Examples include policies such as Restorative Justice The Second Chance Act Three Strikes Laws and the Brady Act and programs such as drug courts boot camps and halfway houses By examining the successes and failures of these innovations the authors demonstrate both the ability of rational planning to make successful improvements and the tendency of unplanned change to result in undesirable outcomes The result is a powerful argument for the use of logic deliberation and collaboration in criminal justice innovations Chapters are enhanced with outlines figures tables examples discussion questions and case studies Appendix includes a seven stage checklist for program and policy planning

The Making of Criminal Justice Policy

Sue Hobbs,Christopher Hamerton,2014-10-24 This new textbook will provide students of criminology with a better understanding of criminal justice policy and in doing so offers a framework for analysing the social economic and political processes that shape its creation The book adopts a policy oriented approach to criminal justice connecting the study of criminology to the wider study of British government public administration and politics Throughout the book the focus is on

key debates and competing perspectives on how policy decisions are made Recognising that contemporary criminal justice policymakers operate in a highly politicised public arena under the gaze of an ever increasing variety of groups organisations and individuals who have a stake in a particular policy issue the book explores how and why these people seek to influence policymaking It also recognises that criminal policy differs from other areas of public policy as policy decisions affect the liberty and freedoms of citizens Throughout key ideas and debates are linked to wider sociology criminology and social policy theory Key features include a foreword by Tim Newburn leading criminologist and author of *Criminology* 2nd Edition 2013 a critical and informed analysis of the concepts ideas and institutional practices that shape criminal justice policy making an exploration of the relationship between criminal justice and wider social policy a critical analysis of the debate about how and why behaviour becomes defined as requiring a criminal justice solution a range of case studies tasks seminar questions and suggested further readings to keep the student engaged This text is perfect for students taking modules in criminology criminal justice and social and public policy as well as those taking courses on criminal and administrative law
