Jerusalem in Medieval Narrative Suzanne M. Yeager, 2008-11-06 An original study of the political religious and literary uses of representations of the holy city in the fourteenth century

Empire of Magic Geraldine Heng, 2003 Empire of Magic offers a genesis and genealogy for medieval romance and the King Arthur legend through the history of Europe s encounters with the East in crusades travel missionizing and empire formation It also produces definitions of race and nation for the medieval period and posits that the Middle Ages and medieval fantasies of race and religion have recently returned Drawing on feminist and gender theory as well as cultural analyses of race class and colonialism this provocative book revises our understanding of the beginnings of the nine hundred year old cultural genre we call romance as well as the King Arthur legend Geraldine Heng argues that romance arose in the twelfth century as a cultural response to the trauma and horror of taboo acts in particular the cannibalism committed by crusaders on the bodies of Muslim enemies in Syria during the First Crusade From such encounters with the East Heng suggests sprang the fantastical episodes featuring King Arthur in Geoffrey of Monmouth s chronicle The History of the Kings of England a work where history and fantasy collide and merge each into the other inventing crucial new examples and models for romances to come After locating the rise of romance and Arthurian legend in the contact zones of East and West Heng demonstrates the adaptability of romance and its key role in the genesis of an English national identity Discussing Jews women children and sexuality in works like the romance of Richard Lionheart stories of the saintly Constance Arthurian chivalric literature the legend of Prester John and travel narratives Heng shows how fantasy enabled audiences to work through issues of communal identity race color class and alternative sexualities in socially sanctioned and safe modes of cultural discussion in which pleasure not anxiety was paramount Romance also engaged with the threat of modernity in the late medieval period as economic social and technological transformations occurred and awareness grew of a vastly enlarged world beyond Europe one encompassing India China and Africa Finally Heng posits romance locates England and Europe within an empire of magic and knowledge that surveys the world and makes it intelligible usable for the future Empire of Magic is expansive in scope spanning the eleventh to the fifteenth centuries and detailed in coverage examining various types of romance historical national popular chivalric family and travel romances among others to see how cultural fantasy responds to changing crises pressures and demands in a number of different ways Boldly controversial theoretically sophisticated and historically rooted Empire of Magic is a dramatic restaging of the role romance played in the culture of a period and world in ways that suggest

how cultural fantasy still functions for us today *Placing and Displacing Romanticism* Peter J. Kitson, 2001 The essays collected in this volume all address the crucial current issues of place and displacement placing and displacing in Romantic period studies These terms are used with dexterity and imagination explored and interrogated in both their literal and figurative manifestations Overall this volume of essays takes forward these seminal terms in contemporary criticism of Romantic writing in a series of fresh and subtle readings of texts and contexts historical philosophical social political and scientific Familiar texts are revisited with new insight and unfamiliar texts are placed in meaningful contexts Despite the claim that Romantic writing denies and evades history and the social tensions of its time this volume shows how such writing is replete with both explicit and implicit contributions to the essential debates of the time The contributors to this volume all leading scholars in their field combine the virtues of close textual reading with an informed awareness of the historical political and social pressures of the Romantic period encouraging a critical stance of historically engaged formalist critique

The Cannibal Within Lewis F. Petrinovich, *The Cannibal Within* offers an evolutionary account of the propensity of human beings in extreme circumstances to eat other human beings despite the strong Western taboo against such practices What sets this volume apart from the large body of literature on cannibalism both popular and anthropological is the underlying premise cannibalism as an alternative to starvation is tacitly condoned by the same biological morality that would condemn cannibalism of other sorts in non threatening situations Deep as the taboos may be the survival instinct runs even deeper The title of the book reflects the author's belief that cannibalism is not a pathology that erupts in psychotic individuals but is a universal adaptive strategy that is evolutionarily sound The cannibal is within all of us and cannibals are within all cultures should the circumstances demand cannibalism's appearance and usage Petrinovich's work is rich in historical detail and rises to a level of theoretical sophistication in addressing a subject too often dealt with in sensationalist terms The major instances in which survival cannibalism has occurred convinced the author that there is a consistent pattern and a uniform regularity of order in which different kinds of individuals are consumed In considering who eats whom when and under what circumstances this regularity appears and it is consistent with what would be expected on the basis of evolutionary or Darwinian theory In short he concludes that starvation cannibalism is not a manifestation of the chaotic psychotic behavior of individuals who are driven to madness but reveals underlying characteristics of evolved human beings Lewis Petrinovich is professor emeritus in the Department of Psychology of the University of California Riverside and is currently a resident of Berkeley California *Concise Encyclopaedia of World History* Carlos Ramirez-Faria, 2007 The Concise Encyclopedia Of World History Offers The Global Reading Public Students And Professors A Handy Complete And Accurate Guide To All Political Formations Since The Beginning Of History It Reaches Into Pre History Through The Inclusion Of The Important Families Of Languages Spoken Today It Also Tracks Ethnic Groups Especially Nomadic Which Have Been Influential In The Creation Of Civilizations And States The Entries On Existing Independent States Include Up To Date

Political Facts And Statistics They Mention Each Country S World Heritage Sites To Complement The Individual Entries In This Encyclopedia There Is An Extensive Commentated World Historical Chronology A Special Feature In This Work Is The Inclusion Of Individual Political Chronologies For Ancient Civilizations And Important Countries And Regions The World Over To Round Out This Easy To Consult And Thoroughly Researched Work There Is A Cross Referenced Index Especially Designed For Provinces Cities And Other Entities Which Have No Entries Of Their Own But Appear In The Entries Sometimes Prominently As For Example Abu Dhabi In The United Arab Emirates Or Amritsar In India *Dinner with a Cannibal* Carole A Travis-Henikoff,2008-03-01 Presenting the history of cannibalism in concert with human evolution Dinner with a Cannibal takes its readers on an astonishing trip around the world and through history examining its subject from every angle in order to paint the incredible multifaceted panoply that is the reality of cannibalism At the heart of Carole A Travis Henikoff s book is the question of how cannibalism began with the human species and how it has become an unspeakable taboo today At a time when science is being battered by religions and failing teaching methods Dinner with a Cannibal presents slices of multiple sciences in a readable understandable form nested within a wealth of data With history paleoanthropology science gore sex murder war culinary tidbits medical facts and anthropology filling its pages Dinner with a Cannibal presents both the light and dark side of the human story the story of how we came to be all the things we are today **The Science of Society** William Graham Sumner,Albert Galloway Keller,Maurice Rea Davie,1927 Vols 1 3 paged continuously Vol 4 by W G Sumner A G Keller and M R Davie Published under the auspices of the Sumner Club on the foundation established in memory of Philip Hamilton McMillan of the class of 1894 Yale College Bibliographical note v 4 p 1193 1268 **Naturalist** ,1911
