Clinical Haematology Atul B. Mehta, Keith Gomez, 2018 *Clinical haematology - Illustrated clinical cases* Atul B. Mehta, 2018 *Clinical Haematology, Second Edition* Atul Bhanu Mehta, Keith Gomez, 2016-02-15 This book from the Self Assessment Colour Review series focuses on haematologic medicine. It consists of 200 clinical cases and covers the whole field of malignant and non-malignant haematology including coagulation problems and infectious diseases. The cases are presented randomly to simulate real life experience and are superbly illustrated with diagrams and photographs of the highest quality. Ideal for post-registration trainees in internal medicine and haematology, senior medical students and established physicians, the questions range from simple to challenging along with fully reasoned answers. *Clinical Haematology* Atul B. Mehta, Keith Gomez, 2018-01-10 Preceded by Self assessment colour review of clinical haematology Atul B Mehta London Manson Pub A1995 *Clinical Haematology* Atul Bhanu Mehta, Keith Gomez, 2017-12-15 This fully illustrated text is an essential guide for trainees in Haematology and Medicine studying for higher examinations as well as for professionals wishing to expand their knowledge or revalidate. The book contains over 100 illustrated cases covering the whole field of malignant and non-malignant haematology including coagulation problems and infectious diseases. Each case contains a set of questions written by two Royal College examiners with answers on the reverse page. Readers can make differential diagnoses and devise treatment plans and prognoses before turning the page to read the experts' detailed answers. The cases are presented in random order just as they would be in real life and are of varying lengths and degrees of difficulty, accompanied by hundreds of colour photomicrographs, photographs and x-rays. This new edition is revised and updated with new cases, images and tables. **Vascular Surgery:** James Forsyth, 2024-11-01 Providing real world case examples and realistic mock examples of vascular surgery emergencies and clinical scenarios, this illustrated text supports trainees and residents in their daily clinical practice. However, the focus on senior decision making and complex clinical management scenarios will also help trainees prepare for the FRCS Vasc and other specialist Vascular Surgery exams. Indeed, making efficient and appropriate clinical decisions is one of the most important and challenging parts of postgraduate vascular surgical training. These realistic cases will teach trainee vascular surgeons to develop their diagnostic and management skills, expand their experience and ultimately should empower them to form more advanced clinical management plans that reflect higher level thinking. **Key Features:** Teaches the surgical trainee how to navigate real world clinical scenarios; Reinforces the practical application of basic principles; Encompasses challenging cases; Provides question and answer options; Case reflections indicate the rationale behind the decision making. A broad range of clinical conditions are covered to ensure that the trainee vascular surgeon can respond with confidence when presented with difficult new case scenarios. *Illustrated Pathology of the Bone Marrow* Attilio Orazi, Dennis P.
