Political Marketing Kostas Gouliamos, Antonis Theocharous, Bruce I. Newman, 2013-11-12 A guiding principle in creating Political Marketing has been to examine the ways in which culture, politics and society interrelate in the field of political marketing. This may be introduced and consequently lead to broad formulation of a campaign culture. Indeed, understanding and adapting a broader campaign culture, political marketing models may be seen as sets of pathways of key resources resulting in human assets, forms of influence, class stratification, alternative flows of information or networking and intercultural knowledge sharing activity. This book consists

of 18 chapters which deal with aspects of political marketing and campaign culture Theoretical chapters are found first followed by two chapters that deal with theoretical issues which became a subject of research Next presented are the articles that study aspects of electoral behavior followed by the papers that analyze aspects of nationalism national identity Finally the book concludes with three case studies on various issues in political marketing
