Color Correction Handbook Alexis Van Hurkman, 2014 The colourist working in film and video is the individual responsible for breathing life into characters, bringing a mood into a scene and making the final product polished and professional looking. This craft is an art form that often takes years to perfect and many trial and error attempts at getting it right. Here to help both the beginning and advanced level student who needs to brush up on their skills is the first book to cover a wide variety of techniques that can be used by colourists no matter what system they are using. Whether you are using a video editing package with a colour correction tool built in, Final Cut Pro, Premiere Pro or a dedicated application, DaVinci Resolve, SpeedGrade or Assimilate Scratch, this book covers it all. From the most basic methods for evaluating and correcting an overall image to the most advanced targeted corrections and creative stylizations typically employed, you will find this highly organised book a solid reference that is easy to navigate. This completely revised edition will include three new chapters: postproduction workflow, around grading, stereoscopic grading and on set grading. Additional sections will include LOG media grading, LUTs, scene balancing with greenscreen, Log controls for contrast and much more.
