Connected Cloth Creating Collaborative Textile Projects:

Connected Cloth Cas Holmes, Anne Kelly, 2013 Discusses working collaboratively in textile art and offers advice on setting up collaborations devising working methods and staging the exhibitions *The Bloomsbury Handbook of Creative Research Methods* Helen Kara, 2023-12-14 This book provides both an overview of and an insight into the rapidly expanding field of creative research methods The contributors from four continents range from doctoral students through to independent and practice based researchers to senior professors providing a clear view of the applicability of creative research methods in all types of research work Chapters offer examples of creative research methods in practice and advice on how to transfer or adapt those methods for different disciplines and settings Research ethics and research quality are considered throughout This is a timely handbook which provides information for novice researchers and inspiration for experienced researchers and is essential reading for anyone interested in creative research methods **Skin Crafts** Julia Skelly, 2022-02-10 Skin Crafts

discusses multiple artists from global contexts who employ craft materials in works that address historical and contemporary violence These artists are deliberately embracing the fragility of textiles and ceramics to evoke the vulnerability of human skin and in so doing are demanding visceral responses from viewers Drawing on a range of theories including affect theory material feminism skin studies phenomenology and global art history the book illuminates the various ways in which artists are harnessing the affective power of craft materials to address and cope with violence Artists from Mexico Africa China the Netherlands and Indigenous artists based in the unceded territory known as Canada are examined in relation to one another to illuminate the connections and differences across their bodies of work Skin Crafts interrogates ongoing material violence towards women and marginalized others and demonstrates the power of contemporary art to force viewers and scholars into facing their ethical responsibilities as human beings **A Cultural History of Western Fashion** Bonnie English, Nazanin Hedayat Munroe, 2022-01-13 Just as the clothes we wear can communicate our personality and how we want to be perceived so fashion can reflect the politics and preoccupations of the society that produced it A Cultural History of Western Fashion

guides you through the relationships between haute couture and ready to wear designer fashions popular culture big business high tech production as well as traditional and social media Exploring fashion s interdisciplinary nature English and Munroe also highlight the parallel evolution of clothing design and the other visual arts over the last 150 years This new edition includes expanded coverage of the build up to the First World War and brings this classic text up to date There is also a new chapter on smart textiles and technology exploring the work of Hussein Chalayan and Iris Van Herpen among others and expanded coverage of the role of sustainability in the contemporary fashion industry including biosynthetic textile production and Stella McCartney s use of vegan leather **Designews** Iowa State University. College of Design, 1996

Art Textiles of the World Matthew Koumis, Jennifer Harris, 1996 *Bulletin of the Atomic Scientists*, 1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact

global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world Expanding Circles Betty Ann Brown,1996 **Integral Green Slovenia** Darja Piciga,Alexander Schieffer,Ronnie Lessem,2016-06-03 Ronnie Lessem and Alexander Schieffer s Integral Green Society and Economy series has three overarching aims The first is to link together two major movements of our time one philosophical the other practical The philosophical movement is towards what many today are calling an integral age while the practical is the green movement duly aligned with that of sustainable development The second is to blend together elements of nature and community culture and spirituality science and technology politics and economics thus serving to bring about an integral green vision albeit with a focus on business and economics As such the authors transcend the limitations to sustainable development and environmental economics which are overly ecological if not also technological in orientation and exclude social and cultural elements Thirdly this particular volume with Darja Piciga focuses specifically on Slovenia as well as on Europe generally drawing on the particular issues and capacities that this country and continent represents particularly for sustainable development and social knowledge based economy The emphasis on Slovenia arose not only because it lies at the heart of Europe but because a specific movement for an Integral Green Slovenian Society and Economy has been co evolved there by the three editors in conjunction with Slovene organisations communities and movements with a view to integrating existing and emerging knowledge resources initiatives and practices into a model as an alternative to austerity for Slovenia and other European countries **Artbibliographies Modern** ,2005
