Das trincheiras, com saudade Isabel Pestana Marques, 2008 *Personal Narratives, Peripheral Theatres: Essays on the Great War (1914-18)* Anthony Barker, Maria Eugénia Pereira, Maria Teresa Cortez, Paulo Alexandre Pereira, Otília Martins, 2017-12-14 This book is a collection of essays on neglected aspects of the Great War It begins by asking what exactly was so Great about it before turning to individual studies of various aspects of the war These fall broadly into two categories Firstly personal micro narratives that deal directly with the experience of war often derived from contemporary interest in diaries and oral histories Presenting both a close up view of the viscosity and the tedium and powerlessness of personal situations these same narratives also address the effects of the war on hitherto under regarded groups such as children and animals Secondly the authors look at the impact of the course of the war on theatres often left out in reflections on the main European combatants and therefore not part of the regular iconography of the trenches in places such as Denmark Canada India the Levant Greece and East Africa *The Global History of Portugal* Carlos Fiolhais, José Eduardo Franco, José Pedro Paiva, 2021-12-06 For thousands of years Portugal has been the point of arrival and departure for peoples cultures languages ideas fashions behaviours beliefs institutions and produce While its miscegenation and global multimodal activity enriched the world in many ways it also provoked violence war suffering and resistance The Global History of Portugal contains 93 chapters grouped into five parts Pre history Antiquity Middle Ages Early Modern period and Modern World Each chapter begins with an event interpreted in the light of global history Each part opens with an introduction offering a perspective of the period in question The three Editors five Scientific Coordinators João Luís Cardoso Carlos Fábio Bernardo Vasconcelos e Sousa Catia Antunes and António Costa Pinto and ninety Contributors offer a critical and analytical synthesis of the history that originated in Portuguese territory or passed through it stimulating the process of encounter and dis encounter in today's global world The history presented gives special attention to the world that moulded Portugal and the Portuguese and to the ways Portugal configured the world It seeks to identify and understand the transversal entanglements of historic impact and the impulses these gave to the construction of Portugal and the world Contemporary reflection and academic scholarship on the global history of leading nations has stimulated a rethinking of the past and a more comprehensive recognition of legacy Historians can no longer overlook the wider world with which their country of investigation has interacted Portugal's role in the dynamic circulation of peoples and ideas makes it global history not only unique by way of what took place but also in terms of a potential academic template for better understanding of how the past shapes the present and more particularly the importance of acknowledging a country's past historic mis steps and how these are dealt with by contemporary populations *History of Military Cartography* Elri Liebenberg, Imre Josef Demhardt, Soetkin Vervust, 2016-01-28 This volume gathers 19 papers first presented at the 5th International Symposium of the ICA Commission on the History of Cartography which took place at the University of Ghent Belgium on 25 December 2014 The overall conference theme was
