Daughters Of A Coral Dawn:

Daughters of a Coral Dawn Katherine V. Forrest, 2011-01-01 The sky begins to shimmer with the silver of brilliant star clusters the eerie radiance of red and blue fluorescence One huge moon glowing gold is soon joined by two others much smaller which slowly rise above the horizon each jagged in shape as if carelessly formed Night falls suddenly and completely and we sit together in a glorious royal blue world illuminated with silver It is Mother who speaks softly So lovely a world is surely meant for women Late in the 22nd century the settling of a new world falls on the strong shoulders of young Megan The perfect leader she undertakes to guide her sisters to a new planet free from the shackles of the brutal Earth regime Negotiating politics in a society of women is second only to securing their safety When a landing party of men and women discover their colony Megan must decide if the outsiders will live or die And that includes Lt Laurel Meredith whose disturbing beauty is as dangerous to Megan as her people are to Megan's world

The Lesbian Revolution Sheila Jeffreys,2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women s Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist institutions such as resources for women survivors of men s violence including refuges and rape crisis centres and that they were central to campaigns against this violence They created a feminist squatting movement theatre groups bands art and poetry and conducted campaigns for lesbian rights They also created a profound and challenging analysis of sexuality which has disappeared from the historical record They analysed heterosexuality as a political institution arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author s personal experience this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution The book will be of key interest to scholars and students of women s history the history of feminism the politics of sexuality women s studies gender studies lesbian and gay studies queer studies and cultural studies as well as to the lay reader interested in the WLM and feminism more generally
