Desaparicin Argentinas Human Rights Trials Hispanic Studies Culture And Ideas:

Humanitarianism and Modern Culture Keith Tester, 2010-01-01 An examination of humanitarianism in Western society Argues that humanitarianism has become a staple part of modern media and celebrity culture R sum de l diteur *The Reparative Effects of Human Rights Trials* Rosario Layus, 2017-08-07 Justice in domestic courts is one of the most prominent aims of victims seeking to obtain accountability for human rights violations It is however also one of the most difficult to achieve In many Latin American countries as well as elsewhere activists have put human rights prosecutions forward as a fundamental means to end impunity build democracy strengthen the rule of law and address victims rights But there is still little knowledge about what actually happens when these judicial mechanisms are effectively put to work Can prosecutions of mass human rights violations contribute to overcome the effects of state violence and impunity Can trials enable meaningful reparative changes for victims in their local contexts Analysing the human rights trials in Argentina established to prosecute those responsible for human rights violations during the military dictatorship this book addresses how and why domestic prosecutions can operate as a means for reparation and contribute to dealing with the damage caused by crimes against humanity Based on a series of interviews conducted with victims participating in these prosecutions as well as with lawyers prosecutors judges and other relevant actors in five provinces of Argentina this book will be of considerable interest to those studying and working in the interdisciplinary field of transitional justice and human rights The PhD thesis on which this book was based was awarded with the 2016 Doctoral Studies Award of the Philipps University of Marburg in Germany *The International Handbooks of Museum Studies, 4 Volume Set* Sharon Macdonald, Helen Rees Leahy, 2015-07-20 The International Handbooks of Museum Studies is a multi volume reference work that represents a state of the art survey of the burgeoning field of museum studies Featuring original essays by leading international museum experts and emerging scholars readings cover all aspects of museum theory practice debates and the impact of technologies The four volumes in the series divided thematically offer in depth treatment of all major issues relating to museum theory historical and contemporary museum practice mediations in art design and architecture and the transformations and challenges confronting the museum In addition to invaluable surveys of current scholarship the entries include a rich and diverse panoply of examples and original case studies to illuminate the various perspectives Unprecedented for its in depth topic coverage and breadth of scholarship the multi volume International Handbooks of Museum Studies is an indispensable resource for the study of the development roles and significance of museums in contemporary society **Developments in Latin American Political Economy** Julia Buxton, Nicola Phillips, 1999 The first part of the volume addresses the changing nature and interaction of the state and the market in Latin American countries as well as the principal challenges of consolidating political and economic reform in a period of profound change The second part of the book examines a variety of traditional and non traditional political roles ranging from the military to women and from the environmental lobby to human

rights It explores the ways in which the changing composition of the political debate is shaping the political arena Forward looking in its approach to volume provides readers with an indication of factors which will be of key significance in the immediate future the tensions which have yet to be resolved and the prospects ahead *New Critical Spaces in Transitional Justice* Arnaud Kurze, Christopher K. Lamont, 2019-01-10 Since the 1980s transitional justice mechanisms have been increasingly applied to account for mass atrocities and grave human rights violations throughout the world Over time post conflict justice practices have expanded across continents and state borders and have fueled the creation of new ideas that go beyond traditional notions of amnesty retribution and reconciliation Gathering work from contributors in international law political science sociology and history *New Critical Spaces in Transitional Justice* addresses issues of space and time in transitional justice studies It explains new trends in responses to post conflict and post authoritarian nations and offers original empirical research to help define the field for the future **In den Verliesen der Diktatur** Janis

Derechos humanos en Latinoamérica y el Sistema Interamericano. Modelos para (des)armar. Ariel Dulitzky, 2017-06-01 Este libro pretende reflexionar críticamente sobre la realidad y las instituciones para transformarlas y ponerlas al servicio de los derechos humanos Nuestra intención es abrir nuevas áreas de investigación para interpretar la interacción entre el derecho internacional y el derecho interno de los países que forman parte del complejo sistema internacional e interamericano de promoción y protección de los derechos humanos analizar su efectividad y visualizar a un sistema de derechos humanos complejo cuya efectividad y funcionamiento podría beneficiarse de una aproximación holística al mismo Como resulta claro al lector no se pretende desarrollar una teoría general sobre el sistema de protección de los derechos humanos Las piezas que lo componen se asientan en ciertos convencimientos sustantivos basados en aproximaciones teóricas y prácticas mediante el ejercicio de la defensa de los derechos humanos en múltiples niveles Este proceso dinámico se desprende de comprender que todos los cambios sociales vendrán desde las propias sociedades En estos procesos convergen el orden local y el internacional La comunidad internacional debe acompañar y apoyar el cambio social sin reemplazar ni sustituir Por eso un sistema internacional como el interamericano no es un fin en sí mismo sino tan solo un instrumento que debe estar al servicio de los actores nacionales y aquellos que luchan por transformaciones sociales que profundizan la vigencia de los derechos

humanos Cada parte de esta obra refleja una preocupaci n constante que moviliza la reflexi n te rica y el trabajo profesional la situaci n de pobreza en la que viven vastos sectores de la sociedad la profunda discriminaci n e inequidad presente global y localmente No hay posibilidad de tener un sistema nacional o internacional de protecci n de los derechos humanos que no comprenda analice y contextualice las violaciones a los derechos humanos sin considerar la pobreza y la discriminaci n Ellas son causa y consecuencia de violaciones a los derechos y las respuestas no pueden abstraerse de dicho contexto si pretenden tener un impacto transformador El sistema interamericano se ha instalado como un actor permanente y prominente en la discusi n sobre la protecci n de los derechos y lo ha hecho principalmente gracias a que la Corte y la Comisi n se han mostrado receptivas a las demandas de las v ctimas y de las organizaciones de derechos humanos Por ello el an lisis y discusi n de las ambivalencias contradicciones y vac os jurisprudenciales existentes as como de las dificultades y obst culos que presenta la defensa de derechos humanos a nivel interamericano son un imperativo necesario para considerar las potencialidades y limitaciones que ofrece un mecanismo judicializado internacional para tutelar estos derechos colectivos Un hilo conductor de los trabajos aqu publicados es la importancia de tener una mirada seria reflexiva y critica del funcionamiento del sistema interamericano como una de las mejores maneras de fortalecerlo y proveerlo de mayor legitimidad

NACLA Report on the Americas ,2000 **Destape** Natalia Milanésio,2019-10-01 Under dictatorship in Argentina sex and sexuality were regulated to the point where sex education explicit images and even suggestive material were prohibited With the return to democracy in 1983 Argentines experienced new freedoms including sexual freedoms The explosion of the availability and ubiquity of sexual material became known as the destape and it uncovered sexuality in provocative ways This was a mass media phenomenon but it went beyond this It was in effect a deeper process of change in sexual ideologies and practices By exploring the boom of sex therapy and sexology the fight for the implementation of sex education in schools the expansion of family planning services and of organizations dedicated to sexual health care and the centrality of discussions on sexuality in feminist and gay organizations Milanésio shows that the destape was a profound transformation of the way Argentines talked understood and experienced sexuality a change in manners morals and personal freedoms

Disappearances in the Post-Transition Era in Latin America Karina Ansolabehere,Barbara A. Frey,Leigh A. Payne,2021-06-24 The book identifies a new human rights phenomenon While disappearances have tended to be associated with authoritarian state and armed conflict periods this study looks at these acts carried out in procedural democracies where democratic institutions prevail
