Confessions Of A Serial Entrepreneur Why I Cant Stop Starting Over:

Confessions of a Serial Entrepreneur Stuart Skorman, 2007-03-07 Entrepreneur Stuart Skorman the founder of Elephant Pharmacy Hungryminds com Reel com and Empire Video grew up in a retailing family in Ohio He worked every kind of job from cab driver to professional poker player to CEO In this entertaining personal account of his coming of age in the business world Skorman gives an insider s view of what it takes to start a business from the ground up Stuart Skorman offers his hard won lessons in business for any entrepreneur or small businessperson who wants to create a company that has a heart and soul He reveals what he learned about marketing while working a stint as a rock band manager and bares his soul about his failure during the dot com bubble He describes in vivid terms the roller coaster ride of the entrepreneur in good times and bad and explains how to survive in today s uncertain business environment **Standing on the Sun**

Christopher Meyer, Julia Kirby, 2012 That global commerce is undergoing a tectonic shift is no secret What you haven t yet heard and are probably looking for is a clear eyed and cogent view of what the world will look like as this transformation takes shape including the specific opportunities that will emerge This book scans the world landscape to provide a vision for the future and delivers the so what action items that businesses so desperately need This is not a book about the recent great recession or the best policy moves It s about economic change drawn on a larger canvas and how it is ushering in a whole new future for capitalism Standing on the Sun does not discuss marketing to the bottom of the pyramid or success models for doing business in the emerging economies Instead it identifies the innovations that will disrupt the patterns of business and governance around the world It will reveal the nascent market leading management solutions that are the very beginning of the next wave It will offer compelling stories and examples that describe the new measurement of value the changing nature of scarcity the value of sustainability and the pricing of externalities that are all suddenly wide open to reinterpretation
