Transitional Ministry Today Norman B. Bendroth, 2014-12-05 Transitional ministry can be tremendously helpful for congregations in times of change and yet to be successful today transitional ministers and churches need to take into account the major changes in the religious landscape From the decline of mainline churches to the rise of those who don t identify with any religious tradition the religious scene has changed dramatically since transitional ministry began three decades ago and to remain vital today the practice of transitional ministry must change as well This book provides transitional ministers and congregations with essential information on re thinking transitional

ministry in ways that take the current religious climate into account Ten experienced authors including seasoned practitioners of transitional ministry and those who oversee transitional ministry denomination wide propose new ways to approach transitional ministry today Chapters address practical theology leadership specialized interim situations renewal during interim time alternative models of transitional ministry and more Essays address a range of diverse churches in size racial ethnic background and location Transitional Ministry Today highlights how creative and cutting edge ministry can be done during the in between time through creative thinking and practice in the face of new realities When God Speaks through Change Craig A. Satterlee, 2005-03-01 At times a congregational transition looms so large in a sermon that it becomes the lens through which scripture is interpreted the congregation is addressed the preacher is heard and God is experienced Homiletics professor and parish pastor Craig Satterlee reflects in this accessible provocative volume about on how to integrate such significant events in a congregation s life into the preaching ministry of the church Rather than offering a blueprint for preaching however he walks along pastors seminarians and other congregational leaders who want to make sure the Gospel not an agenda is preached **Violent Trauma, Culture, and Power** Michelle Walsh, 2017-02-16 This book is an interdisciplinary exploration of the intertwining impact of violent trauma culture and power through case studies of two ministries serving in different demographic contexts within the United States Mass shootings continue to rise in the United States including in religious and school contexts and the U S also is ground zero for the now international Black Lives Matter movement The author shows how all forms of violent trauma impact more than individuals devastating communal relationships and practices of religious or spiritual meaning making in the aftermath and assesses how these impacts differ according to lived experiences with culture and power Looking at the two ministries an urban grassroots lay ministry organization that serves surviving family members in the aftermath of homicide and a denominational ministry that served a church in the aftermath of a political and religiously motivated shooting the author develops trauma specific interdisciplinary tools for lived religion studies This book powerfully utilizes an intersectional lens to highlight the inter interconnections to be found for those working in faith communities as well as mental health Walsh provides the reader with an opportunity to explore and develop theoretical and practice perspectives that include race and ethnicity religion and spirituality social class and ability sexual orientation immigration and refugee status and explores the impact that oppression and discrimination have on our communities and society I highly recommend this book for those who are engaged in working to combat domination at the local national and global levels Gary Bailey Simmons College USA **Transitional Ministry** Molly Dale Smith, 2009-06 Transition is the word we use to describe the time following significant change In congregations that change might be the departure of the pastor a catastrophe such as Hurricane Katrina or 9 11 or simply the changes caused by growth Transition calls for clergy with special training to respond to the needs generated by the special time Task training and time limit are the hallmarks of transitional ministry Trained intentional interim clergy must have the skill and experience

to lead congregations during transition However transitional or interim ministry has a bad reputation in some places As one diocesan leader said We have never had a church in this diocese that was so bad off that an interim was needed Indeed there are some sick churches but most congregations have some good things happening and some things that need attention Intentional interim ministry can be medicine for the sick but in most cases it is better compared to vitamins that are taken to promote health This book seeks to clear up misconceptions about transitional ministry and present an accurate and up to date picture of transitional ministry and to describe the various settings in which this specialized ministry can be helpful Chapter authors all expert in transitional ministry in mainline Protestant denominations include Robert Friedrich John Keydel George Martin Loren Mead Barry Miller Nancy Miller Ineke Mitchell Ken Ornell Molly Dale Smith and Rob Voyle
