David And Goliath By Malcolm Gladwell:

David and Goliath Malcolm Gladwell, 2013-10-01 Explore the power of the underdog in Malcolm Gladwell's dazzling examination of success, motivation and the role of adversity in shaping our lives from the bestselling author of *The Bomber Mafia*. Three thousand years ago on a battlefield in ancient Palestine a shepherd boy felled a mighty warrior with nothing more than a stone and a sling and ever since then the names of David and Goliath have stood for battles between underdogs and giants. David's victory was improbable and miraculous. He shouldn't have won. Or should he have? In *David and Goliath* Malcolm Gladwell challenges how we think about obstacles and disadvantages, offering a new interpretation of what it means to be discriminated against, to cope with a disability, to lose a parent, to attend a mediocre school, or to suffer from any number of other apparent setbacks. Gladwell begins with the real story of what happened between the giant and the shepherd boy those many years ago. From there, *David and Goliath* examines Northern Ireland's Troubles, the minds of cancer researchers, and civil rights leaders, murder and the high costs of revenge, and the dynamics of successful and unsuccessful classrooms, all to demonstrate how much of what is beautiful and important in the world arises from what looks like suffering and adversity. In the tradition of Gladwell's previous bestsellers *The Tipping Point*, *Blink*, *Outliers*, and *What the Dog Saw*, *David and Goliath* draws upon history, psychology, and powerful storytelling to reshape the way we think of the world around us.

David & Goliath by Malcolm Gladwell, Summary Swiftread, 2017-09-05 Summary *David Goliath* by Malcolm Gladwell Whether a conflict is between two nations, two businesses, or even a person battling physical dysfunction, we tend to assume that the bigger and better armed of the opponents will take the day. That's why stories like the battle between Goliath and David capture our imagination: they are so remarkable. But Malcolm Gladwell proposes that we are missing out on the bigger picture: we assume too much about outcomes and miss some realities which paint a different picture. Certainly Goliath presents an imposing threat, but he is generally not as invulnerable as we initially expect, and David is not without resources and options. In making this point in *David and Goliath*, *Underdogs*, *Misfits*, and *The Art of Battling Giants*, Gladwell reviews a number of underdog stories which illustrate his core message: that David is much more likely to succeed against Goliath than is generally expected, while providing insights into how each of us can find the resources needed to overcome our own Goliaths.
