Communism Unwrapped Consumption In Cold War Eastern Europe:

Communism Unwrapped Paulina Bren, Mary Neuburger, 2012-08-08 *Communism Unwrapped* reveals the complex world of consumption in Cold War Eastern Europe exploring the ways people shopped ate drank smoked cooked acquired assessed and exchanged goods These everyday experiences the editors and contributors argue were central to the way that communism was lived in its widely varied contexts in the region From design to production to retail sales and black market exchange *Communism Unwrapped* follows communist goods from producer to consumer tracing their circuitous routes In the communist world this journey was rife with its own meanings shaped by the special political and social circumstances of these societies In examining consumption behind the Iron Curtain this volume brings dimension and nuance to understandings of the communist period and the history of consumerism

Communism's Public Sphere Kyrill Kunakhovich, 2023-01-15 *Communism's Public Sphere* explores the political role of cultural spaces in the Eastern Bloc Under communist regimes that banned free speech political discussions shifted to spaces of art theaters galleries concert halls and youth clubs Kyrill Kunakhovich shows how these venues turned into sites of dialogue and contestation While officials used them to spread the communist message artists and audiences often flouted state policy and championed alternative visions Cultural spaces therefore came to function as a public sphere or a rare outlet for discussing public affairs Focusing on Krak w in Poland and Leipzig in East Germany *Communism's Public Sphere* sheds new light on state society interactions in the

Eastern Bloc In place of the familiar trope of domination and resistance it highlights unexpected symbioses like state sponsored rock and roll socialist consumerism and sanctioned dissent By examining nearly five decades of communist rule from the Red Army's arrival in Poland in 1944 to German reunification in 1990 Kunakhovich argues that cultural spaces played a pivotal mediating role They helped reform and stabilize East European communism but also gave cover to the protest movements that ultimately brought it down

Globalization in State Socialist East Central Europe Béla Tomka, 2024-07-20 This open access Palgrave Pivot explores four major aspects of globalization foreign trade capital and information flows and the movement of people The book examines how the state socialist countries of East Central Europe fit into the general trend of globalization after WWII It focuses on three specific countries in the region Poland Czechoslovakia and Hungary The study also considers conceptual problems whether recently introduced terms such as alternative globalization and socialist proto globalization are plausible for interpreting state socialist globalization Special attention is paid to the study of continuities and discontinuities in the process of globalization in East Central Europe which is a key issue in current debates This requires a long term perspective so the study covers not only the decades before 1989 but also subsequent developments In doing so the book attempts to find a balance between old and new mainstream interpretations it recognises that East Central European societies experienced considerable globalization during the state socialist era however based on empirical findings instead of alternative or proto globalization the book suggests other notions to conceptualise this process including fragmentation selectivity and unevenness Thus the proposed understanding could also contribute to discussions on globalization beyond East Central Europe

A History of Eastern Europe 1918 to the Present Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe's tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re emerged more virulent than ever This book is the essential textbook for any student of 20th century Eastern Europe

Hagemann, Donna Harsch, Friederike Brühöfener, 2019-04-02 Although entanglement has become a keyword in recent German history scholarship entangled studies of the postwar era have largely limited their scope to politics and economics across the two Germanys while giving short shrift to social and cultural phenomena like gender At the same time historians of gender in Germany have tended to treat East and West Germany in isolation with little attention paid to intersections and interrelationships between the two countries This groundbreaking collection synthesizes the perspectives of entangled history and gender studies bringing together established as well as upcoming scholars to investigate the ways in which East and West German gender relations were culturally socially and politically intertwined *Women and Industry in the Balkans* Chiara Bonfiglioli, 2019-09-19 Women s emancipation through productive labour was a key tenet of socialist politics in post World War II Yugoslavia Mass industrialisation under Tito led many young women to join traditionally feminised sectors and as a consequence the textile sector grew rapidly fast becoming a gendered symbol of industrialisation consumption and socialist modernity By the 1980s Yugoslavia was one of the world s leading producers of textiles and garments The break up of Yugoslavia in 1991 however resulted in factory closures bankruptcy and layoffs forcing thousands of garment industry workers into precarious and often exploitative private sector jobs Drawing on more than 60 oral history interviews with former and current garment workers as well as workplace periodicals and contemporary press material collected across Croatia Macedonia Serbia Bosnia Herzegovina and Slovenia *Women and Industry in the Balkans* charts the rise and fall of the Yugoslav textile sector as well as the implications of this post socialist transition for the first time In the process the book explores broader questions about memories of socialism lingering feelings of attachment to the socialist welfare system and the complexity of the post socialist era This is important reading for all scholars working on the history and politics of Yugoslavia and the Balkans oral history memory studies and gender studies *The Socialist Good Life* Cristofer Scarboro, Diana Mincyte, Zsuzsu Gille, 2020-06-02 First class rigorously researched richly documented and thought provoking

essays on the consumer experience in socialist Eastern Europe Graham H Roberts author of *Material Culture in Russia and the USSR* As communist regimes denigrated Western countries for widespread unemployment and consumer excess socialist Eastern European states simultaneously legitimized their power through their apparent ability to satisfy consumers needs Moving beyond binaries of production and consumption the essays collected here examine the lessons consumption studies can offer about ethnic and national identity and the role of economic expertise in shaping consumer behavior From Polish VCRs to Ukrainian fashion boutiques tropical fruits in the GDR to cinemas in Belgrade *The Socialist Good Life* explores what consumption means in a worker state where communist ideology emphasizes collective needs over individual pleasures
