Community and Neighbourhood Mediation Marian Liebmann, 1998 Looks at mediation as it can be applied to resolving community and neighbourhood disputes The book covers the history and theory of mediation practices before looking at how these can work in practice by analyzing the mediation process and examining detailed case studies It goes on to look at the organizational structures which allow these processes to be delivered from model structures and services to advice on recruitment and training The book also examines practical issues such as the importance of equal opportunities in community mediation schemes how to maintain standards and get accreditation and how to maintain cost effectiveness

Community and Neighbour Mediation Marian Liebmann, 2003 [Responding to Community Conflict](#) John Gray, Moira Halliday, Andrew Woodgate, 2002 This review maps the range of mediation within the community that is mediation of disputes within local communities outside established legal and justice systems It identifies what community mediation is and how it links to other mediation activities within the UK highlighting the range of organisations responsible for providing mediation how are they managed and the way in which mediation is delivered **Global Trends in**

Restorative Policing Lodewijk Gunther Moor,2009 The focus of restorative policing is within a community oriented policing approach where the police have important tasks in rendering services to the population Traditional forms of penal treatment no longer satisfy entirely especially in relation to nuisances incivilities and petty crime Is the community police officer the simple registrar of events between victim and offender Can s he take the role of mediator or can s he refer to external instances in the domain of mediation or to civil judges Do the police have their own restorative regulations and institutionalized practices and are they involved in mediation in penal matters In what ways do police officers contribute to informal restorative practices and conflict resolution in neighborhoods This book is about restorative policing practices and the place and role police forces can take in this kind of approach

Understanding Victims And Restorative Justice Dignan, James,2004-11-01 Although the topics dealt with are complex the author has been very successful in presenting and exploring them clearly Students may find particularly helpful the summary at the end of each chapter of the main points covered in that section The Legal Executive the real strength of this book lies in the critical thinking that arises from the juxtaposition of two very much unfinished debates the question of how victims are treated by the justice system and the practices and implications of restorative justice I feel this book is particularly important because it reframes a whole series of debates and practices which otherwise might be in danger of getting stuck That this is also undertaken by someone who is extremely knowledgeable about the subject matter and perceptive in relation to key issues is an added bonus Vista Two of the principal and most influential developments within criminal justice policy taking in a variety of common law jurisdictions during the past thirty years have been the rise of the victim movement and the emergence of a distinctive set of practices that have become associated with the term restorative justice Understanding Victims and Restorative Justiceexamines the origins of and the relationship between these two sets of developments and seeks to assess their strengths and weaknesses in meeting the needs of victims as part of the overall response to crime Written in a lively and accessible style this book is of benefit to students from a range of disciplines including criminology sociology and the law Also helpful to professionals practitioners and policymakers working in voluntary agencies within the criminal justice system
