## **Community In Mission A Salvationist Ecclesiology:**

**Community in Mission** Phil Needham, 1987      Community in Mission Philip D. Needham, 1987      Lutheran Salvationists? Gudrun Maria Lydholm, 2017-03-13 The idea of a state religion is seldom connected to religious freedom and liberal modern and democratic states However such a situation existed in Norway until 2012 when the Lutheran Church was the state church of Norway A large majority of the population belonged to the church even though the percentage in 2013 had fallen to well over seventy five The relationship between the church and minority religious movements demanded adaptation and compromises from the minority churches The Salvation Army's enculturation and accommodation during its 128 year history in Norway illustrates such a situation The book examines how The Salvation Army accommodated itself both doctrinally as well as practically to the situation of a dominant state church The study reveals such a close affiliation of Salvationists to the Norwegian Church as a state institution that it raises the question of whether a concept of civil religion was implicitly present in Salvationists view of the state church and their own adherence to the church This situation also raises the question of what constitutes a real church The book indicates the tension between Lutheran and Salvationist ecclesiology as well as the influence from the Lutheran Church      **The Nature and Mission of the Church** Jean-Marc Flückiger, This is an academic work of the highest quality but Jean Marc Flückiger presents it in a way that makes it very accessible far beyond academic circles It is a testament to his sharp intellect but even more to his love of God commitment to The Salvation Army and heartfelt dedication to the Church's mission in the world Henrik Andersen Territorial Leader of The Salvation Army Switzerland Austria Hungary Jean Marc Flückiger's book is a welcome reflection on the missionary impulse of Christian churches I found it particularly helpful to consider the interplay of the three main ingredients of mission namely worship of God community life and service to the world Christophe Chalamet Professor of Systematic Theology University of Geneva      Partnering with God Lynette Edge, Gregory Morgan, 2017-05-12 God has an epic plan for the flourishing of all people and places Want to join in Partnering with God will help you find your place in that quest as we join in building God's kingdom on earth as it is in heaven Mission is no spectator sport and God invites our participation in the millennia old story of the missio Dei Lynette Edge and Gregory Morgan have lived and taught mission within The Salvation Army for many years In these pages they offer a missiological framework and practice in the West today from a Salvation Army perspective You will be challenged in these pages to think and live missionally We are called to join a profound partnership with God to bring about the world as it was intended to be Are you in      **Saved, Sanctified and Serving** Denis Metruster, 2016-06-01 This comprehensive significant work on Salvation Army theology and practice is designed to help reinforce Salvationists appreciation of their movement's rationale and mission helping to maintain and increase the Army's unique position within the Church and as part of global faith based responses to humanitarian need The writers in this volume hold and proclaim a clear vision for the Army's future fully seizing contemporary opportunities while retaining the fire and zeal of the primitive

Movement     Like a Mighty Army David W Taylor, 2015-02-26 In 1937 prior to the 1948 inauguration of the World Council of Churches Karl Barth challenged the churches to engage in real strict sober genuine theology in order that the unity of the church might be visibly realized At that time The Salvation Army didn't aspire to become formally known as a church even though it was a founding member of the WCC Today it is globally known as a social welfare organization concerned especially to serve the needs of those who find themselves at the margins of society Less well known is that seventy years after Barth's challenge it has made its peace with the view that it is a church denomination Accepting Barth's challenge to the churches and in dialogue with his own ecumenical ecclesiology the concept of the church as an Army is interrogated in service to The Salvation Army's developing understanding of its identity and to the visible unity of God's church     **Saved to Save and Saved to Serve** Harold Hill, 2017-07-24 The Salvation Army has now been around for more than one hundred and fifty years having celebrated its sesquicentennial in 2015 with an International Congress in London Over the years both the Army and the world in which it appeared have changed beyond recognition This is a good time for the movement to stop and look back not just to celebrate but to see where it is today The Army has not evolved in isolation from the world Bringing its own history with it it nevertheless belongs to the twenty first century world as much as William Booth's little East End Mission belonged to nineteenth century London This book attempts to explore the interaction between mission and world as it has impacted the Army's beliefs and practices as well as the place it now occupies in the wider world This critical and analytical study may also be of interest to those beyond the Army's ranks who would like to learn more about this remarkable organization     **Leadership in The Salvation Army** Harold Hill, 2006-10-01 Leadership in The Salvation Army is a review and analysis of Salvation Army history focused on the process of clericalisation The Army provides a case study of the way in which renewal movements in the church institutionalise Their leadership roles initially merely functional and based on the principle of the priesthood of all believers begin to assume greater status the adoption of the term ordination for the commissioning of The Salvation Army's officers in 1978 a hundred years after its founding illustrates this tendency The Salvation Army's ecclesiology has been essentially pragmatic and has developed in comparative isolation from the wider church perhaps with a greater role being played by sociological processes than by theological reflection in its development The Army continues to exhibit a tension between its theology which supports equality of status and its military structure which works against equality and both schools of thought flourish within its ranks     Rites of Ordination and Commitment in the Churches of the Nordic Countries Hans Raun Iversen, 2006 A unique situation exists in the Nordic countries where there is a Lutheran majority living in ecumenical cooperation with other churches and ecclesiastical communities This book attempts to shed light on what the churches have discovered they hold in common and on areas where they recognise that there are divergencies between them both in relation to ordination and ministry and in particular to the theology and terminology of ordination The book brings together the research and insights of 23 researchers from all the Nordic countries

studying more than 200 different kinds of ordination rites from the Orthodox and Roman Catholic as well as Lutheran and non Lutheran protestant traditions After an introduction to the churches in the Nordic countries the book presents 19 case studies from the Nordic countries The last part includes some general ecumenical and liturgical perspectives on ordination and rites presented by international researchers
