The Performing Life Sharon Mabry, 2012-08-07 **The Performing Life** A Singer's Guide to Survival is the first hand account of the 35 year career of singer music professor and recording artist Sharon Mabry who draws on personal

experience to explore how professional singers survive in the face of personal and professional pressures, exorbitant expectations, illness, and the demands of their public. She details the factors that can change the course of a particular performance or an entire career. Mabry offers sage advice for how singers can bolster themselves mentally, physically, and emotionally in order to maintain their powers of performance. Divided into two parts, *The Performing Life* focuses first on such basics as the need for extensive preparation, discovering your performance niche, acquiring mentors, determining your maintenance level, finding a strong support system, learning how and what to organize, and discovering how to groom body and mind. In the second half, Mabry draws on her wealth of personal stories to dig more deeply into such seemingly mundane but absolutely critical matters as personal health, illness, food allergies, insomnia, logistical challenges presented by venue location, and performance dynamics, and the difficulties off stage organized by the recording studio. In all instances, Mabry illustrates how perseverance, organization, attention to detail, excellent training, strong planning, a resilient support system, and a good sense of humor can lead to a successful and satisfying career during even the most difficult times.

The 21st-century Singer Susan Mohini Kane, 2015. The vast majority of singers with a degree in performance are un- or underemployed in their field. Despite the fact that talented singers are discovered every day, there are far too few jobs in the field of classical music to accommodate all of them, a problem evidenced by regular reports of opera companies and symphony orchestras closing their doors. Young classical singers, particularly recent graduates of music programs, need not

only artistic ability but also intelligence and an acute business sense to navigate the world of professional singing In The 21st Century Singer Making the Leap from the University into the World author Susan Mohini Kane has created a user friendly guide for these recent graduates Kane combines the benefits of an instructional manual with those of a self reflective workbook to provide emerging classical singers with both practical and inspirational advice She begins with a section on self evaluation allowing readers to define what motivates their desire to sing professionally and reflect on their passions before moving on to career advice In the sections that follow Kane presents a variety of career paths such as singing teaching and consulting realistic alternatives to the rise to stardom as an overnight sensation that so few will experience and provides the reader with the tools to develop a concrete plan for whichever path they decide to pursue Other sections offer instruction on how to develop support systems train oneself holistically and take advantage of the newest technological resources available for professional self promotion With its dual emphasis on artistic motivation and modern day business sense The 21st Century Singer will prove an essential text for anyone pursuing a professional singing career
