A Metropolitan History of the Dutch Empire Matthijs Kuipers, 2025-10-01 *A Metropolitan History of the Dutch Empire* Popular Imperialism in The Netherlands 1850 1940 examines popular imperial culture in the Netherlands around the turn of the twentieth century In various and sometimes unexpected places in civil society the empire played a prominent role and was key in mobilizing people for causes that were directly and indirectly related to the Dutch overseas colonies At the same time however the empire was ostensibly absent from people s minds Except for some jingoist outbursts during the Aceh War and the Boer War indifference was the main attitude with which imperial affairs were greeted How could the empire simultaneously be present and absent in metropolitan life Drawing upon the works of scholars from fields ranging from postcolonial studies to Habsburg imperialism the author argues that indifference to empire was not an anomaly to the idea of an all permeating imperial culture but rather the logical consequence of an imperial ideology that rendered metropole and colony firmly separated entities The different groups and individuals that advocated imperial or anti imperial causes such as missionaries former colonials Indonesian students and boy scouts hardly ever related to each other explicitly and had their own distinctive modes of expression but were nonetheless part of what the author calls a fragmented empire and shared the common thread of Dutch imperial ideology This suggests we should not mistake colonial culture s metropolitan invisibility for a lack of strength

Netherlands **Travelling the Dutch East Indies** Rick Honings e.a.,2022-12-14 In 1594 the first Dutch ships sailed to the East Throughout the seventeenth and eighteenth century almost five thousand ships were sent to the Dutch East Indies attracting a growing number of travellers with trade as one of the major incentives In addition to Dutch missionary ambitions progress and technological innovations not only fed the growing hunger for expansion but also stirred an appetite for adventure The hope for a life in welfare is mirrored in the growing numbers of passengers travelling East in the nineteenth century and the first half of the twentieth century At the same time Javanese travellers started to explore their homeland as well Travelling the Dutch East Indies not only offers a diverse picture of travel and a critical perspective on the colonial ideology with which it is associated but also shows how the collections of Leiden University Libraries can serve as a rich source for all kinds of historical research The Postcolonial Low Countries Elleke Boehmer,Sarah De Mul,2012-06-01 The Postcolonial Low Countries is the first book to bring together critical and comparative approaches to the emergent field of neerlandophone postcolonial studies The collection of essays ranges across the cultures and literatures of the Netherlands and Belgium and establishes an encounter between postcolonial theoretical discourses from both within and without the region Each one of the contributions puts under pressure the definitive concepts of postcolonial studies in its more conventional anglophone or francophone formation as well as perceptions of the Low Countries Belgium and the Netherlands as lying outside or to the side of the postcolonial domain In the Low Countries local and regional issues concerning multiculturalism and colonial belatedness have raised important questions about the possible grounds on which postcolonial critical concepts might be not only translated but also generated afresh to suit these paradoxically new contexts As The Postcolonial Low Countries incisively demonstrates the Low Countries demand a careful rearticulation of such postcolonial readymades as hybridity accommodation and creolization Gathering together contributions from both internationally renowned scholars and newly established researchers in the field The Postcolonial Low Countries maps previously underexplored national and transnational literary critical trajectories The book challenges in boundary shifting ways current readings of the so described multicultural and postcolonial Netherlands and Belgium **Kolonialisme!** Martin Bossenbroek,2024-10-16 Het koloniale verleden en het slavernijverleden van Nederland staan de laatste tijd volop in de belangstelling in steeds negatievere termen Na tientallen jaren borstklopperij is de slinger doorgeslagen naar boetedoening Dankzij s lands bekendste Leidse historici koning Willem Alexander en voormalig premier Mark Rutte staat Nederland nu zelfs bovenaan de Europese ranglijst van spijt en excuses Is dat wenselijk of moet de politiek stoppen met wat volgens velen getuigt van een weg met ons mentaliteit Bossenbroek neigt naar dat laatste De officiële excuses hebben namelijk geen breed draagvlak onder de bevolking De grootste politieke partij de pvv wil alle excuses intrekken en het land terugveroveren Volgens een internationale peiling voelen Nederlanders van alle ondervraagde nationaliteiten verreweg de meeste trots en de minste schaamte over hun koloniale verleden Zodoende lijkt de omgang met de vaderlandse geschiedenis de kloof tussen
