## **Democracy Nationalism And Multiculturalism Routledge Innovations In Political Theory:**

**Democracy, Nationalism and Multiculturalism** Ramón Máiz, Ferrán Requejo, 2004-06-11 Democracy Nationalism and Multiculturalism provides an up to date review of subnational and multicultural issues in Western multinational states The book includes normative institutional and comparative accounts of key issues such as politics and policies of accommodation multiculturalism recognition of group rights federalist reforms and debates in Canada and European states the political construction of the European Union

**Democracy, Nationalism and Multiculturalism** Ramón Máiz, Ferrán Requejo, 2004-06-11 This book provides an up to date review of subnational and multicultural issues in Western multinational states

Multinational Federalism Alain-G Gagnon, 2015-12-17 A collection of state of the art reflections by fourteen leading experts in the field of multinational federalism Seymour and Gagnon have gathered contributions from philosophers political scientists and jurists dealing with the accommodation of peoples in countries like Belgium Canada Europe Great Britain India and Spain

**Morality and Nationalism** Catherine Frost, 2006-04-18 This book takes a unique approach to explore the moral foundations of nationalism Drawing on nationalist writings and examining almost 200 years of nationalism in Ireland and Quebec the author develops a theory of nationalism based on its role in representation The study of nationalism has tended towards the construction of dichotomies arguing for example that there are political and cultural or civic and ethnic versions of the phenomenon However as an object of moral scrutiny this bifurcation makes nationalism difficult to work with The author draws on primary sources to see how nationalists themselves argued for their cause and examines almost two hundred years of nationalism in two well known cases Ireland and Quebec The author identifies which themes if any are common across the various forms that nationalism can take and then goes on to develop a theory of nationalism based on its role in representation This representation based approach provides both a basis for the moral claim of nationalism while at the same time identifying grounds on which this claim can be evaluated and limited It will be of strong interest to political theorists especially those working on nationalism multiculturalism and minority rights The special focus in the book on the Irish and Quebec cases also makes it relevant reading for specialists in these fields as well as for other area studies where nationalism is an issue

**Hegel and the Metaphysical Frontiers of Political Theory** Eric Lee Goodfield, 2014-06-27 For over one hundred and fifty years G W F Hegel s ghost has haunted theoretical understanding and practice His opponents first and later his defenders have equally defined their programs against and with his In this way Hegel s political thought has both situated and displaced modern political theorizing This book takes the reception of Hegel s political thought as a lens through which contemporary methodological and ideological prerogatives are exposed It traces the nineteenth century origins of the positivist revolt against Hegel s legacy forward to political science s turn away from philosophical tradition in the twentieth century The book critically reviews the subsequent revisionist trend that has eliminated his metaphysics from contemporary considerations of his political thought It then moves to re evaluate their relation and defend their

inseparability in his major work on politics the Philosophy of Right Against this background the book concludes with an argument for the inherent metaphysical dimension of political theorizing itself Goodfield takes Hegel's reception representation as well as rejection in Anglo American scholarship as a mirror in which its metaphysical presuppositions of the political are exceptionally well reflected It is through such reflection he argues that we may begin to come to terms with them This book will be of great interest to students scholars and readers of political theory and philosophy Hegel metaphysics and the philosophy of the social sciences

**Critical Theory and Democracy** Enrique Peruzzotti, Martin Plot, 2012-11-27 This book focuses on Andrew Arato's democratic theory and its relevance to contemporary issues such as processes of democratization civil society constitution making and the modern Executive Andrew Arato is both globally and disciplinarily a prominent thinker in the fields of democratic theory constitutional law and comparative politics influencing several generations of scholars This is the first volume to systematically address his democratic theory Including contributions from leading scholars such as Dick Howard Ulrich Preuss Hubertus Buchstein Janos Kis Uri Ram Leonardo Avritzer Carlos de la Torre and Nicol's Lynch this book is organized around three major areas of Arato's influence on contemporary political and social thought The first section offers a comprehensive view of Arato's scholarship from his early work on critical theory and Western Marxism to his current research on constitution making and its application The second section shifts its focus from the previous comprehensive approach to a much more specific one Arato's widespread influence on the study of civil society in democratization processes in Latin America The third section includes a previously unpublished work A conceptual history of dictatorship and its rivals one of the few systematic interrogations on the meaning of a political form of fundamental relevance in the contemporary world Critical Theory and Democracy will be of interest to critical and social theorists and all Arato scholars

Democracy and Pluralism Alan Finlayson, 2009-10-16 This edited volume provides a coherent and comprehensive assessment of William E Connolly's significant contribution to the field of political theory

Political Evil in a Global Age Patrick Hayden, 2009-01-13 Hannah Arendt is widely regarded as one of the twentieth century's most powerful political theorists The purpose of this book is to make an innovative contribution to the newly emerging literature connecting Arendt to international political theory and debates surrounding globalization In recent years the work of Arendt has gathered increasing interest from scholars in the field of international political theory because of its potential relevance for understanding international affairs Focusing on the central theme of evil in Arendt's work this book weaves together elements of Arendt's theory in order to engage with four major problems connected with contemporary globalization genocide and crimes against humanity global poverty and radical economic inequality global refugees displaced persons and the stateless and the destructive domination of the public realm by predatory neoliberal economic globalization Hayden shows that a key constellation of her concepts the right to have rights superfluousness thoughtlessness plurality freedom and power can help us to understand and address some of the central problems involving political evil in our global

age In doing so this book takes Arendtian scholarship and international political theory into provocative new directions Political Evil in a Global Age will be of interest to students researchers and scholars of politics philosophy sociology and cultural studies Democracy, Dialectics, and Difference Brian C. Lovato, 2015-12-07 It has been nearly two centuries since Marx famously turned Hegel on his head in order to repurpose dialectics as a revolutionary way of thinking about the internal contradictions of our social relations Despite critiques from post structuralists post colonialists and others there has been a resurgence of dialectical thought among political theorists as of late This resurgence has coincided with a rise in the mention of words like class warfare socialism and communism among the general public on the streets of Seattle in 1999 in Cairo s Tahrir Square in the actions of the Greek anarchists and the Spanish indignados and in the rallying cry of we are the 99% of the Occupy Movement and in academia This book explores how it is that dialectical thought might respond to the critiques brought forth by those on the left who are critical of Marxism s universalizing and authoritarian legacy Brian C Lovato singles out Ernesto Laclau and Chantal Mouffe as the key interlocutors in this ongoing conversation between Marxism and post structuralism Laclau and Mouffe argue that Marxist theory is inherently authoritarian cannot escape a class reductionist theory of revolutionary subjectivity and is bound by a closed Hegelian ontology Lovato argues the opposite by turning to two heterodox Marxist thinkers Raya Dunayevskaya and C L R James in order to construct a radically democratic dynamic and open conceptualization of dialectical thought In doing so he advances a vision of Marxist theory that might serve as a resource to scholars and activists committed not only to combatting capitalism but also to fighting against colonialism patriarchy white supremacy and heteronormativity The writings of Dunayevskaya and James allow for Marxism to become relevant again in these tumultuous early years of the 21st century **Logics of Critical Explanation in Social and Political Theory** Jason Glynos, David Howarth, 2007-09-12 This book develops a novel approach to critical explanation as a function of logics taking a distinctive approach to social science explanation and political studies more specifically which avoids the problem of scientism
