Democratising Local Government The South African Experiment

Lydie Cabane

Democratising Local Government The South African Experiment:

Democratising Local Government ,2002 Local government is at the forefront of development In South Africa the ambitious policy objectives of post apartheid reconstruction and development hinge on the successful creation of a democratic tier of government close to the people An entirely new system of developmental local government has thus been introduced As is the case in many developing countries the responsibilities of municipalities in South Africa have been extended dramatically often without adequate resources Managing municipalities for development therefore requires political will and strategic intervention The book provides a comprehensive introduction to developmental local government It includes the design of the new local government system and the issues posed by decentralisation an overview of specific challenges of urban and rural municipalities a discussion of special issues facing local government including poverty gender and environment new tools for local government including budgeting indicators municipal partnerships and capacity building

Consolidating Developmental Local Government Mirjam Van Donk,Isandla Institute,2008 Documents the dynamics of local government transformation and captures the key themes of the debates about policy options lessons and key strategic decisions This text is suitable for government officials students researchers specialists community leaders businesses and the general reader

Developmental Local Government Jaap De Visser,2005 This book concerns the role of the state in achieving development In many developing countries conventional wisdom concluded that development is best achieved through a centralised development strategy The failure of this centralised development strategy has brought about the emergence of decentralisation to local government as one of the means to turn the tide of underdevelopment This book presents decentralisation not only as a manifestation of good governance but also as an indispensable tool towards development The central question however is the following how should the transitional state convert this into constitutional and legal arrangements The author proposes a model for capturing the developmental role of local government in institutional arrangements The new design for local government put forward in South Africas 1997 Constitution is based on the notion that local government should be the epicentre of development This has prompted the author to use this South African concept as well as the first experiences with the implementation of the new local government dispensation as a case study The importance of the book thus lies in the fact that it produces an institutional model for developmental local government that is not only based on development and decentralisation theories but is also tested in practice It is hoped that those with an interest in the role of the state in development will find the arguments and conclusions useful The book also provides a comprehensive overview of the South African design for local government which is of interest to lawyers policy makers and other parties involved in the implementation of the South African decentralisation strategy Jaap de Visser teaches public law at the Law Faculty of Utrecht University in the Netherlands Until the end of 2002 he worked as a researcher for the Community Law Centre University of the Western Cape specialising in local government law

Democratising Local Government S (Susan); Pieterse Parnell (E (Edgar); Swilling, M (Mark).),2002 **Johannesburg**

Keith Beavon,2022-08-01 Until now there has been no single text that brings together the material that reveals the unfolding geography of Johannesburg South Africa This books describes the history of the city from its days as a mining camp to its position of premier metropolis in Africa The present geography of Johannesburg and the problems and dysfunctions that is hat exhibited at various stages in its history since 1886 cannot be understood without a firm grasp of what has evolved of the past 120 years The Governance of Transitions - The Transitions of Governance Martijn van der Steen,2018-12-12 Why is

societal transition not simply a matter of change management or normal policy design South Africa is living proof of the ability of a society to reinvent and reinstall itself With the advent of new societal challenges came the need for real societal innovation especially in sectors where it was never deemed necessary or possible before This book asks What type of governance is helpful for developing new societal institutions and systems that can overcome systemic crises in emerging economies and fragile communities What emerges is a compilation of chapters that introduce different parts of a solution which can be used in developing both a growing body of practices of governed societal transitions and the associated transition of governance The Governance of Transitions The Transitions of Governance in part aims to provide building blocks which government and society could use to develop strategies for creating sustainable outcomes It considers what kind of leadership organisation or methods for accountability enable new types of governance and what the most important barriers are **Municipal Management** Annelise Venter,2007 Book the constitutional dispensation as it affects

municipalities the strategic orientation of municipalities within the global and national contexts the capacities and resources available best practices as far as management processes procedures and methods are concerned The book explores the multifaceted nature of municipal management in South Africa and focuses the readers attention on selected key strategic issues such as local economic development local democracy disaster risk reduction **Urban Politics After Apartheid**

Sandrine Gukelberger,2018-06-13 Urban Politics After Apartheid presents an understanding of gendered urban politics in South Africa as an interactive process Based on long term fieldwork in the former townships 20 years after the end of apartheid it provides an in depth analysis of how activists and local politicians engage with each other Sandrine Gukelberger contributes to the ongoing debate on urban governance by adding a new historicising perspective as an entry point into the urban governance arena based upon the political trajectories of ward councillors and activists Integrating urban governance studies with new perspectives on policy and social movements provides insight on the everyday events in which people engender negotiate and contest concepts policies and institutions that have been introduced under the catch all banner of democracy By conceptualising these events as encounters at different knowledge interfaces the book develops a locus for an anthropology of policy highlighting everyday negotiations in urban politics Urban Politics After Apartheid dissects the social life of policies such as Desmond Tutu s rainbow nation metaphor beyond national symbolism and academic and public

discourse that largely portray participation in South Africa to be weak local politicians to be absent and social movements to be toothless tigers Proving the inaccuracy of these portrayals this book will be of interest to students and scholars of South African politics urban studies political anthropology and political sociology The Government of Disasters Lydie Cabane,2023-09-22 This book examines the history of disaster management in South Africa showing how experts professionals and policymakers have crafted and implemented disaster policies from the mid twentieth century to the present day It assesses the ways in which states become concerned with disasters the extent to which disaster management contributes toward state formation and who and what disaster management protects It also considers the ways in which the politics of protection continuously shift as political regimes change In telling the story of how policies surrounding disaster protection have evolved in South Africa the book demonstrates how the security apparatus that shaped disaster management was re oriented in the twenty first century towards development alongside bureaucratic reforms that aimed to democratize the state By examining the wider context of the globalization of disaster management it also highlights the often unrecognised role of experts from Africa Latin America and Asia in shaping global disaster policies The book will appeal to scholars and students of disaster governance public policy state formation and African politics **Politics of the Periphery** Pierre Hamel,2024-01-31 New urban forms characterizing contemporary metropolises reflect a certain continuity with the patterns of the past They also include unexpected forms of settlement and design that have emerged in response to social and economic needs and as a way of leveraging new technologies Politics of the Periphery sets out to explore sub urban governance in diverse contexts in order to better understand how materiality and space are shaped by the possibilities and constraints of confronting actors This collection edited by Pierre Hamel examines the empirical aspects of collective action and planning in eight urban regions around the world across North America Europe Asia and Africa and reveals the impacts and consequences of various structures of suburban governance The case studies feature a diverse range of local actors facing both the specificity of their respective milieus and the broader context of extended urbanization as metropolitan regions cope with new territorial challenges The book focuses on suburbanization processes that characterize most of these post metropolitan regions and questions whether it is possible to improve suburban governance in the face of growing uncertainties arising from structural and subjective transformations Paying close attention to the relationship between the local and the global Politics of the Periphery challenges the planning processes of evolving metropolitan regions

Eventually, you will extremely discover a further experience and realization by spending more cash. yet when? attain you acknowledge that you require to acquire those all needs subsequently having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to understand even more not far off from the globe, experience, some places, in imitation of history, amusement, and a lot more?

It is your categorically own period to achievement reviewing habit. in the course of guides you could enjoy now is **Democratising Local Government The South African Experiment** below.
