Russell Walker, Greg Merkley

Chipotle Food With Integrity:

Chipotle Mexican Grill Russell Walker, Greg Merkley, 2017 By any measure Chipotle Mexican Grill was a success story in the restaurant business. It grew from one location in 1993 to over 2,000 locations by 2016 and essentially created the fast casual dining category. Its stock appreciated more than 1,000% in the ten years following its 2006 IPO. However, after more than 20 years without a major reported food safety incident, Chipotle was revealed as the source of multiple outbreaks of illness from norovirus, salmonella, and E. coli that sickened nearly 600 people in 13 states in 2015. The company closed stores, spent several months under investigation by the U.S. Centers for Disease Control and Prevention (CDC) and other health organizations, and faced a criminal investigation in connection with the incidents. After a much-publicized closing of all of its stores on February 8, 2016, and numerous changes to its food sourcing and preparation practices, Chipotle tried to win back customers with dramatically increased advertising and free food promotions. However, on April 26, the chain announced its first ever quarterly loss as a public company. Same store sales for the first quarter were 29.7% lower than in the previous year. Operating margins fell from 27.5% to 6.8% over the same period, and the company's share price was down 41% from its summer 2015 high.

Chipotle Mexican Grill Inc. Alan Nathan Hoffman, 2014 Founded by Steve Ells in 1993, Chipotle Mexican Grill quickly became one of the fastest growing restaurant chains in US history. People loved Chipotle because of the tasty and healthy food as well as its edgy, trendy, cool brand image. Chipotle established itself as a successful company practicing conscious capitalism by serving food with integrity; its supply chain and corporate culture were closely integrated from the time that ingredients were farmed, raised, harvested, and shipped to stores to the time the final product was placed on a customer's serving tray. By 2014, the fast casual food market in the US became increasingly competitive and crowded with many new entrants, especially traditional fast food players who were attracted by the double-digit revenue growth. Being a public listed company, Chipotle had to meet Wall Street's high expectations of growth and earnings. Living up to analysts' expectations was becoming increasingly difficult for Chipotle.
