Co-Creation Giang Thi Phi,Dianne Dredge,2021-07-05 Co creation is fast becoming a buzz word in tourism Traditional approaches to value creation in tourism suggest that operators and suppliers produce goods and services which are consumed by tourists The value produced is usually measured in economic terms Co creation challenges these assumptions arguing that tourism producers and consumers co create value together and that this value is more diverse than just economic value Technologies underpinning social media ratings and review tools and e commerce are facilitating the creation of diverse values and have been responsible for driving innovation in for example new business models such as the collaborative economy Social environmental emotional reputational and other kinds of value may also be produced and a wide range of stakeholders not just producers or consumers might also benefit from the value co creation process This edited volume seeks to go beyond the dominant business management marketing perspectives that focus on the co creation of market value and innovation to excavate complex and critical episodes of co creation in tourism By engaging authors from both the academy and beyond it explores the rich historical lineage of co creation and its contemporary practices The chapters in this book were originally published in *Tourism Recreation Research* *IFIs and Tourism: Perspectives and Debates* ,
