To its right is a black desk lamp. A green potted plant with large leaves is in the background. On the left, a power strip with several black cables plugged into it is visible. The Sovereign Self Grant H. Kester, 2023-06-13 In *The Sovereign Self* Grant H Kester examines the evolving discourse of

aesthetic autonomy from its origins in the Enlightenment through avant garde projects and movements in the nineteenth and twentieth centuries Kester traces the idea of aesthetic autonomy the sense that art should be autonomous from social forces while retaining the ability to reflect back critically on society through Kant Schiller Hegel Marx and Adorno Kester critiques the use of aesthetic autonomy as the basis for understanding the nature of art and the shifting relationship between art and revolutionary praxis He shows that dominant discourses of aesthetic autonomy reproduce the very forms of bourgeois liberalism that autonomy discourse itself claims to challenge Analyzing avant garde art and political movements in Russia India Latin America and elsewhere Kester retheorizes the aesthetic beyond autonomy Ultimately Kester demonstrates that the question of aesthetic autonomy has ramifications that extend beyond art to encompass the nature of political transformation and forms of anticolonial resistance that challenge the Eurocentric concept of Man upon which the aesthetic itself often depends *Thomas Hirschhorn* Thomas Hirschhorn, Alison M.
