Critical Discourse Analysis in Translation Studies Kyung Hye Kim, 2025-06-25 *Critical Discourse Analysis in Translation Studies* is the first textbook to provide a systematic treatment of how CDA may be applied to the analysis of translated and interpreted texts. Kyung Hye Kim provides in depth explanations about how various strands of CDA from the M. A. K. Hallidayan analytical framework to Norman Fairclough's dialectical relationship model and Teun van Dijk's ideological square can be employed in translation studies to deliver rich analyses of translated text. She demonstrates the ability of CDA to address complex translation practices in both traditional and digital media using various examples in different languages. With numerous exercises using authentic texts, this textbook empowers readers to apply a CDA framework in their own work. This accessible textbook is essential reading for all students of discourse and text analysis within translation and interpreting studies.

Self-Care, Translation Professionalization, and the Translator's Ethical Agency Abderrahman Boukhaffa, 2024-10-10 This book draws on an interdisciplinary approach to investigate the impact of codes of ethics as prescribed in translator organizations, proposing alternative ethical pathways grounded in self-care ethics to enhance translators' symbolic recognition and ethical agency. The volume seeks to provide a counterpoint to existing views in

translation studies research on ethics by building on work in sociology and philosophical genealogy particularly Foucault's notion of *Epimeleia Heautou* to establish a framework of self care ethics Featuring analyses of various codes of ethics across different professional associations the book offers a critical examination of the potential impact of codified ethics on translator autonomy and symbolic status and in turn their broader social and planetary responsibilities within their roles as translators beyond the translation community In setting out an alternative charter of ethics which promotes a culture of the self within larger institutions and critical pedagogy within translator education programs the volume charts new directions in emergent debates on ethics in translation practice This book will appeal to scholars in translation and interpreting studies particularly those interested in ethics and sociological and philosophical approaches within the discipline
