New Directions in Critical Public Health Lindsay McLaren, Judith Green, Ronald Labonte, 2025-09-15 In an era where debates about public health research policy and practice are central to the wider socio political discourse this invaluable volume brings together key themes from the last 15 years of critical scholarship in and of public health The book provides both empirical examples and the conceptual tools for rethinking the role of public health in society challenging the familiar biomedicalized and individualized discourse that has dominated throughout the COVID 19 pandemic Divided into nine chapters it covers key topics such as complex systems of health determinants evidence making in public health and the role of corporate actors and philanthropists Reframing the field through local and global political lenses New Directions in Critical Public Health Health in Turbulent Times also integrates interdisciplinary perspectives to provide a truly holistic overview of this rapidly evolving area It will interest not only students and scholars of public health and the health sciences more widely but also those in the fields of sociology political and development studies and economics

Food and Public Health Wendy Wills, Alison Draper, Ulla Gustafsson, 2015-07-16 This book focuses on food policy and its relationship to public health as an increasingly important issue in today's society Contributors highlight the lack of global regulation in the food supply chain and explore the common tendency to leave regulation to markets and to individual consumer decisions In a period where there is growing concern about the sustainability of contemporary food systems this book considers the inadequate response made to issues of food waste where solutions in high income countries are dependent on lifestyle and consumer behaviour It offers an insight in to the importance of people's everyday lives in relation to policies on public health food and sustainability The text demonstrates the corrosive impact of social inequality and the futility of identifying lower income consumers as flawed when aiming for food policies that seek to achieve improvements in public health Factors such as technological developments ecological concerns and international trade are also taken in to account This book was originally published as a special issue of Critical Public Health

Critical Perspectives on Public Systems Management in India Amar KJR Nayak, Ram Kumar Kakani, 2021-03-07 This book analyses the effectiveness of district administration from critical management perspective Using classical organizational theory and leadership competency framework the authors conducted a comparative study of

two exemplary districts with distinctive traits in India a rural district in the developed state of Maharashtra and an urban district from the underdeveloped state of Madhya Pradesh The book delves into the dynamics of district administration by breaking down the processes further and mapping the role of the district magistrates on the UNDP competency framework Given the changing scope and challenges of public service this comparative analysis of the two districts would provide insights into district administration and would be of significant relevance to administrators and management professionals across the globe in assessing their effectiveness The book provides an eclectic framework for public administration from an overall sustainability perspective **Handbook of Social Sciences and Global Public Health** Pranee
