Cross Currents: Cultures, Communities, Technologies Kris Blair, Robin M. Murphy, Jen Almjeld, 2013-01-01

CROSSCURRENTS CULTURES COMMUNITIES TECHNOLOGIES is a combined print and online text webtext designed to provide readings and activities that allow students not only to critically examine mass culture and the media that circulates it but also to engage rhetorically with electronic communication presentation and web authoring and digital imaging technologies CROSSCURRENTS is available as a full color printed text and as an electronic text with additional links to YouTube and websites chosen by the authors to extend the conversation and learning experience CROSSCURRENTS represents the first in a new generation of texts that doesn't make instructors choose between teaching traditional rhetorical concerns and helping students develop as writers and readers of electronic media Important Notice Media content referenced within the product description or the product text may not be available in the ebook version **Resources in**

Education, 2001-10 **Oil Shock** Elisabetta Bini, Giuliano Garavini, Federico Romero, 2016-05-27 The 1973 Oil Shock is considered a turning point in the history of the twentieth century At the time it seemed to mark a definitive shift from the era of low priced oil to the era of expensive oil For most Western industrialized countries it became the symbolic marker of the end of an era For many oil producers it translated into an unprecedented control over their energy resources and completed the process of decolonization leading to a profound redefinition of international relations This book provides an analysis of the crisis and its global political and economic impact It features contributions from a range of perspectives and approaches including political economic environmental international and social history The authors examine the origins of what was defined as an oil revolution by the oil producing countries as well as the far reaching effects of the shock on the Cold War and decolonization on international energy markets and the global economy In doing so they help place the event in its historical context as a key moment in the transformation of the international economy and of North South relations

Future Earth Diana Dalbotten, Gillian Roehrig, Patrick Hamilton, 2014-04-08 Earth now is dominated by both biogeophysical and anthropogenic processes as represented in these two images from a simulation of aerosols Dust red from the Sahara sweeps west across the Atlantic Ocean Sea salt blue rises into the atmosphere from winds over the North Atlantic and from a tropical cyclone in the Indian Ocean Organic and black carbon green from biomass burning is notable over the Amazon and Southeast Asia Plumes of sulfate white from fossil fuel burning are particularly prominent over northeastern North America and East Asia If present trends of dust emissions and fossil fuel burning continues in what we call the Anthropocene epoch then we could experience high atmospheric CO₂ levels leading to unusual warming rarely experienced in Earth's history This book focuses on human influences on land ocean and the atmosphere to determine if human activities are operating within or beyond the safe zones of our planet's biological chemical and physical systems Volume highlights include Assessment of civic understanding of Earth and its future Understanding the role of undergraduate geoscience

research and community driven research on the Anthropocene Effective communication of science to a broader audience that would include the public the K 12 science community or populations underrepresented in the sciences Public outreach on climate education geoscience alliance and scientific reasoning Future Earth is a valuable practical guide for scientists from all disciplines including geoscientists museum curators science educators and public policy makers **2012-2013 College Admissions Data Sourcebook Northeast Edition** , American Universities and Colleges James J.
