Crossing Cultures Readings For Composition 6th Edition:

Teaching About Dialect Variations and Language in Secondary English Classrooms Michelle D.

Devereaux, 2014-10-17 Standardized tests demand Standard English but secondary students grades 6-12 come to school speaking a variety of dialects and languages thus creating a conflict between students' language of nurture and the expectations of school. The purpose of this text is twofold: to explain and illustrate how language varieties function in the classroom and in students' lives and to detail linguistically informed instructional strategies. Through anecdotes from the classroom, lesson plans, and accessible narrative, it introduces theory and clearly builds the bridge to daily classroom practices that respect students' language varieties and use those varieties as strengths upon which secondary English teachers can build. The book explains how to teach about language variations and ideologies in the classroom, uses typically taught texts as models for exploring how power, society, and identity interact with language, literature, and students' lives, connects the Common Core State Standards to the concepts presented, and offers strategies to teach the sense and structure of Standard English and other language variations so that all students may add Standard English to their linguistic toolboxes.

Wretched Refuge Jessica Datema, Diane Krumrey, 2010-02-19 Recent literary expressions of the immigrant experience reveal the postmodern narrative obsession with the immigrant as cultural and political outlier. *Wretched Refuge* asks us to reimagine this preoccupation with what Junot Diaz calls the actual flows of third world bodies as part of a larger, more pertinent motif of the postmodern itinerant. As a figure of cultural becoming, the itinerant stands for displacement and dispersion exceeding the confines of physical location, political subjectivity, and relation to the natural world. Thus *Wretched Refuge* seeks to map the cosmopolitan positionalities of an immigrant or exilic experience: the itinerant, the migrant, and other foreign bodies. The essays in *Wretched Refuge* consider fiction, memoir, and pop culture genres that reconceive time, space, and the shifting situatedness of the subject within nature, politics, and culture. The book weaves together modern and postmodern visions of itinerancy in the writings of Cormac McCarthy, Bob Dylan, Junot Diaz, Edwidge Danticat, Jeffrey Eugenides, Jhumpa Lahiri, Roberto Bolaño, Paul Bowles, and Bill McKibben, among others. Throughout these radically different narratives, the trace of the itinerant suggests a cosmopolitan response to localized anxieties about global hegemony.

Crossing Cultures Myrna Knepler, Annie Knepler, 2003 The sixth edition of this cross-cultural writing anthology contains eight thematically organized units that introduce students to a wide variety of cultures in the United States, allowing them to analyze cultural differences and reflect on their own cultural background. Each selection has been chosen because it is accessible and puts forth a subject and style that will engage college students and provide thought-provoking material for class discussion, as well as compelling ideas for writing. The thematic units provide logical groupings for class study, but the text is also flexible and allows teachers to pair readings in a variety of ways. A headnote for each piece provides background information to help students prepare for the reading. The questions that follow each

selection guide students through the reading and help them analyze both the content and style of the work The writing questions can be used for formal paper assignments or as prompts for less formal writing

Teaching Cross-Cultural Values Deborah Gonzalez, 2004-12 Teaching Cross Cultural Values came out of the need to give students an interactive experience with the course materials and to be able to gently coax them to reevaluate their own values and concepts on diverse cultures in a relatively safe comfortable atmosphere To do that I had to put the focus on them and lead them through the steps by helping them develop critical thinking skills skills that once developed and embedded as a thinking tool would continue to help students meet the challenge of questioning what they see and experience and then analyze their own thinking processes to understand those different from them for long after they leave the classroom The critical reasoning skills explored in this collection of interactive activities are 1 Analytical Thinking Critical Analysis 2 Associative Thinking 3 Creative Thinking 4 Critical Thinking 5 Evaluative Thinking 6 Hypothesis Problem Solving 7 Inductive Deductive Thinking 8 Perceptual Thinking Interpretation Summarizing 9 Questioning 10 Synthesizing
