Sense and Respond Jeff Gothelf, Josh Seiden, 2017-02-07 The End of Assembly Line Management We re in the midst of a revolution Quantum leaps in technology are enabling organizations to observe and measure people s behavior in real time communicate internally at extraordinary speed and innovate continuously These new software driven technologies are transforming the way companies interact with their customers employees and other stakeholders This is no mere tech issue The transformation requires a complete rethinking of the way we organize and manage work And as software becomes ever more integrated into every product and service making this big shift is quickly becoming the key operational challenge for businesses of all kinds We need a management model that doesn t merely account for but actually embraces continuous change Yet the truth is most organizations continue to rely on outmoded industrial era operational models They structure their teams manage their people and evolve their organizational cultures the way they always have Now organizations are emerging and thriving based on their capacity to sense and respond instantly to customer and employee behaviors In *Sense and Respond* Jeff Gothelf and Josh Seiden leading tech experts and founders of the global Lean UX movement vividly show how these companies operate highlighting the new mindset and skills needed to lead and manage them and to continuously innovate within them In illuminating and instructive business examples you ll see organizations with distinctively new operating principles shifting from managing outputs to what the authors call outcome focused management forming self guided teams that can read and react to a fast changing environment creating a learning all the time culture that can understand and respond to new customer behaviors and the data they generate and finally developing in everyone at the company the new universal skills of customer listening assessment and response This engaging and practical book provides the crucial new operational and management model to help you and your organization win in a world of continuous change

The Art of Classic Planning Nir Haim Buras, 2020-01-28 An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable demonstrating how we can restore function and beauty to our urban spaces for the long term Nearly everything we treasure in the world s most beautiful cities was built over a century ago Cities like Prague Paris and Lisbon draw millions of visitors from around the world because of their exquisite architecture walkable neighborhoods and human scale Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years not because of traffic population growth or other practical hurdles but because of ill considered theories emerging from Modernism and reactions to it The errors of urban design over the last century are too great not to question The solutions being offered today sustainability walkability smart and green technologies hint at what has been lost and what may be regained but they remain piecemeal and superficial In *The Art of Classic Planning* architect and planner Nir Haim Buras documents and extends the time tested and holistic practices that held sway before the reign of Modernism With hundreds of full color illustrations and photographs that will captivate architects planners administrators

and developers The Art of Classic Planning restores and revitalizes the foundations of urban planning Inspired by venerable cities like Kyoto Vienna and Venice and by the great successes of L'Enfant's Washington Haussmann's Paris and Burnham's Chicago Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world The Art of Classic Planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities
