Cruel Britannia A Secret History Of Torture

Samantha Newbery

Cruel Britannia A Secret History Of Torture:

Cruel Britannia Ian Cobain,2013 A award winning book from an acclaimed investigative journalist Cruel Britannia tells the hidden story of Britain s secretive and shameful record of torture for the first time *A Secret History of Torture* Ian Cobain,2013-01-01 The official line is clear the United Kingdom does not solicit encourage or condone torture And yet the evidence is irrefutable when faced with potential threats to their national security the gloves always come off Drawing on previously unseen official documents and the accounts of witnesses victims and experts prize winning investigative journalist Ian Cobain looks beyond the cover ups the equivocations and the attempts to dismiss brutality as the work of a few rogue interrogators to get to the truth From the Second World War to the War on Terror via Kenya and Northern Ireland *A Secret History of Torture* shows how the West have repeatedly and systematically resorted to torture turning a blind eye where necessary bending the law where they can and issuing categorical denials all the while What emerges is a picture of Britain that challenges our complacency on human rights and exposes the lie behind their reputation for fair play Brutal treatments Russell T. Moul,2025-05-13 *Brutal treatments* explores the role medical doctors played in the colonial counterinsurgency campaigns in British Kenya 1952 1960 and French Algeria 1954 1962 in the final years of empire It not only examines how these medical professionals became embroiled in the conflict but also how they used their knowledge to further the interests of the state The book makes a substantial and significant contribution to the history of medicine the history of medical ethics and the history of colonialism **Liberal Democracies at War** Andrew Knapp,Hilary Footitt,2013-09-26 An analysis of how 20th Century wars have been represented and misrepresented to Western publics

Spies in the Congo Susan Williams,2018-05-31 *Spies in the Congo* is the untold story of one of the most tightly guarded secrets of the Second World War America s desperate struggle to secure enough uranium to build its atomic bomb The Shinkolobwe mine in the Belgian Congo was the most important deposit of uranium yet discovered anywhere on earth vital to the success of the Manhattan Project Given that Germany was also working on an atomic bomb it was an urgent priority for the US to prevent uranium from the Congo being diverted to the enemy a task entrusted to Washington s elite secret intelligence agents Sent undercover to colonial Africa to track the ore and to hunt Nazi collaborators their assignment was made even tougher by the complex political reality and by tensions with Belgian and British officials A gripping spy thriller *Spies in the Congo* is the true story of unsung heroism of the handful of good men and one woman in Africa who were determined to deny Hitler his bomb **Churchill's German Special Forces** Paul Moorcraft,2023-02-22 The existence of German speaking units fighting for the Allied cause during WW2 has remained largely a well kept secret But seventy five years on these units contribution to victory needs to be fully acknowledged Prime Minister Winston Churchill had no qualms about using native German speakers from Austria Poland Czechoslovakia and of course Germany itself The majority were Jews who had fled persecution Two examples of these secret units were X Troop Commandos and the Special Interrogation

Group The SIG men deserve their legendary status They fought and often died wearing Wehrmacht uniform As this superbly researched book reveals that after infiltrating Field Marshal Rommel's Afrika Korps one detachment even drew Nazi pay Inevitably once the existence of SIG units became known their immediate execution on capture was ordered unless their temporary reprieve would reveal intelligence under torture We learn how Churchill's initiative was copied by both the Americans and the Russians Post war SIG and X Troop survivors joined British special forces or were used to hunt down Nazi war criminals All this and more is covered in this ground breaking book by a writer who is both a leading historian and foreign correspondent

Interrogation, intelligence and security Samantha Newbery, 2015-06-01 Interrogation Intelligence and Security examines the origins and effects of a group of interrogation techniques known as the five techniques Through its in depth analysis the book reveals how British forces came to use these controversial methods Focusing on the British colony of Aden 1963-67 the height of the troubles in Northern Ireland 1971 and the conflict in Iraq 2003 the book explores the use of hooding to restrict vision white noise stress positions limited sleep and a limited diet There are clear parallels between these three case studies and the use of controversial interrogation techniques today Readers will be able to make informed judgements about whether on the basis of the results of these cases interrogation techniques that might be described as torture can be justified This book will be of particular interest to security professionals academics and members of the public interested in the torture debate intelligence the military counter insurgency counter terrorism foreign policy and law enforcement

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023 Beginning with Britain's 1948 declaration of a Malayan Emergency and ending with the 1973 withdrawal of US ground troops from Vietnam this Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires

Thatcher's Secret War Clive Bloom, 2021-08-02 Scary but enlightening Christopher Stone Margaret Thatcher remains one of the United Kingdom's most polarising prime ministers This provocative investigation sheds light on the secret internal cold war that she waged against the enemy within everyone she could not see eye to eye with It was a campaign fuelled by paranoia on both the left and right of the political spectrum and fought with corruption black propaganda dirty tricks and even murder Expertly juxtaposing notable events with today's political arena this new and updated edition of Thatcher's Secret War surmises that although Thatcher's ideals seem to have vanished one remains the power and importance of the extra parliamentary state and its surveillance methods and hidden powers in a new age of terrorism

Healthcare and the Troubles Ruth Duffy, 2024-07-15 This book provides the first detailed study of healthcare during the period of the Troubles in Northern Ireland 1968-1998 While there have been some studies of the effects of conflict in the context of Northern Ireland to date there have been no in depth histories of the impact of the Troubles on healthcare and the experiences of healthcare professionals Ruth Duffy's work combines analysis of archival research and oral history

interviews to reveal the widespread impact of the conflict on healthcare facilities their staff and patients as well as the broader societal implications of providing services during the Troubles The book allows the voices of those who worked on the frontline to be heard for the first time as well as exploring important issues such as medical ethics and neutrality It offers new and valuable insights into the cost of the Northern Ireland conflict and its legacy today

This Engaging Realm of E-book Books: A Comprehensive Guide Unveiling the Pros of E-book Books: A Realm of Ease and Flexibility E-book books, with their inherent mobility and simplicity of access, have freed readers from the limitations of hardcopy books.
