The Critical Handbook Edward Cushing Mitchell,1880

Ward-based Critical Care: a guide for health professionals Ann M Price,Dr Sally A Smith,Dr Alistair Challiner,2016-01-01

Like the original Ward based Critical Care this second edition aims to guide practitioners in the initial management of critically ill adult patients within the ward setting

It should be of value to a wide range of healthcare professionals including junior doctors nurses physiotherapists and students

It will also be relevant to practitioners who are moving into any setting that cares for acutely ill patients

This volume has been slightly reorganised since the first edition to ensure that practical aspects are incorporated within the relevant sections

The book is still structured around the ABCDE approach to assessing and managing patients as this is promoted in critical care and resuscitation care training

The focus on practical examples and hot tips to aid memory of key points continues

All the chapters have been updated with the most recent guidance as available at the time of writing

This has meant that some chapters have required major revisions while others have remained relatively unchanged

Some new chapters have been included such as the ones on anaphylactic shock patient safety dealing with pregnant women in the ward setting and massive blood transfusion

In addition each section now starts with a chapter giving an overview of the A E approach in order to provide more detail about assessing and managing those aspects of patient care

This informative book contains many useful features such as clinical scenarios hot tips and practical skills and the text is richly illustrated and cross referenced throughout
