Critical Race Narratives Carl Gutierrez-Jones, 2001-08-01 The beating of Rodney King the killing of Amadou Diallo and the LAPD Rampart Scandal these events have been interpreted by the courts the media and the public in dramatically conflicting ways *Critical Race Narratives* examines what is at stake in these conflicts and in so doing rethinks racial strife in the United States as a highly charged struggle over different methods of reading and writing Focusing in particular on the practice and theorization of narrative strategies Gutierrez Jones engages many of the most influential texts in the recent race debates including *The Bell Curve* *America in Black and White* *The Alchemy of Race and Rights* and *The Mismeasure of Man* In the process *Critical Race Narratives* pursues key questions posed by the texts as they work within or against disciplinary expectations can critical engagements with narrative enable a more democratic dialogue regarding race what promise does such experimentation hold for working through the traumatic legacy of racism in the United States Throughout *Critical Race Narratives* initiates a timely dialogue between race focused narrative experiment in scholarly writing and similar work in literary texts and popular culture

Critical Race Narratives Carl Gutierrez-Jones, 2001-08 An immensely valuable contribution As the last generation of witnesses to the Holocaust testify to its horrors they must also testify to its heroes those who risked all to save lives These movingly told stories restore our faith in the human spirit William Shirer The mystery of the rescue phenomenon will probably always elude us As the rescuers narratives in this remarkable volume show the acts of saving Jews seemed spontaneous and natural and thus the mystery of the rescue act begins to unravel radiantly The insights which this interdisciplinary collection of essays subtly pieces together show in unique fashion the preconditions or the possibilities of individual and collective courage Dennis B Klein author of *Jewish Origins of the Psychoanalytic Movement* A distinguished group of internationally known individuals Jews and non Jews rescuers and rescued offer their enriching first person accounts and reflections that explore the question Why did the Danes risk their lives to rescue the Jewish population

[Saving Our Children from the First Amendment](#) Kevin W. Saunders, 2006-03 The First Amendment is vital to our political system our cultural institutions and our routine social interactions with others In this provocative book Kevin Saunders asserts that freedom of expression can be very harmful to our children making it more likely that they will be the perpetrators or victims of violence will grow up as racists or will use alcohol or tobacco *Saving Our Children from the First Amendment* examines both the value and cost of free expression in America demonstrating how an unregulated flow of information can be detrimental to youth While the great value of the First Amendment is found in its protection of our most important political freedoms this is far more significant for adults who can fully grasp and benefit from the freedom of expression than for children Constitutional prohibitions on distributing sexual materials to children Saunders proposes should be expanded to include violent vulgar or profane materials as well as music that contains hate speech Saunders offers

an insightful meditation on the problem of protecting our children from the negative effects of freedom of expression without curtailing First Amendment rights for adults *Discrimination by Default* Lu-in Wang, 2008-04 Drawing on social psychology to detail three ways in which unconscious assumptions can lead to discrimination this book demonstrates how these dynamics interact in medical care to produce an invisible self fulfilling and self perpetuating prophecy of racial disparity
