Critical Terms For Religious Studies:

Critical Terms for Religious Studies, Second Edition Sarah Hammerschlag, 2025-05-21 A new edition of a classic resource composed of twenty three essays written specifically for this volume First published nearly thirty years ago Critical Terms for Religious Studies proved a vital resource for an emerging interdisciplinary conversation We still use much of the same language in the study of religion but fresh concerns have both changed the meaning of terms and given rise to new terms altogether This edition consists of twenty three entirely new essays that offer students and scholars alike the tools to historicize and evaluate the shifting role of familiar and emerging critical terms in religious studies These are critical terms both because they are important in our cultural moment and because thinking through them reveals how religions are embedded in and shaped by material social economic and political forces A shared conviction unites contributors from a range of traditions and methodologies a recognition that our world is saturated by the persistence of religious traditions as shape shifting not static or transcendent forces of authority as powerful today as ever before

Critical Terms for Religious Studies Mark C. Taylor, 1998-08-15 Following in the very successful tradition of Critical Terms for Literary Studies and Critical Terms for Art History this book attempts to provide a revitalized self aware vocabulary with which this bewildering religious diversity can be accurately described and responsibly discussed Leading scholars working in a variety of traditions demonstrate through their incisive discussions that even our most basic terms for understanding religion are not neutral but carry specific historical and conceptual freight

Critical Terms for Religious Studies Mark C. Taylor, 2013-07-09 A century that began with modernism sweeping across Europe is ending with a remarkable resurgence of religious beliefs and practices throughout the world Wherever one looks today from headlines about political turmoil in the Middle East to pop music and videos one cannot escape the pivotal role of religious beliefs and practices in shaping selves societies and cultures Following in the very successful tradition of Critical Terms for Literary Studies and Critical Terms for Art History this book attempts to provide a revitalized self aware vocabulary with which this bewildering religious diversity can be accurately described and responsibly discussed Leading scholars working in a variety of traditions demonstrate through their incisive discussions that even our most basic terms for understanding religion are not neutral but carry specific historical and conceptual freight These essays adopt the approach that has won this book's predecessors such widespread acclaim each provides a concise history of a critical term explores the issues raised by the term and puts the term to use in an analysis of a religious work practice or event Moving across Judaism Christianity Hinduism Buddhism Islam and Native American and Mayan religions contributors explore terms ranging from experience territory and image to God sacrifice and transgression The result is an essential reference that will reshape the field of religious studies and transform the way in which religion is understood by scholars from all disciplines including anthropology sociology psychology cultural studies gender studies and literary studies

Critical Terms for the Study of Buddhism Donald S. Lopez Jr., 2009-11-15 Over

the past century Buddhism has come to be seen as a world religion exceeding Christianity in longevity and according to many philosophical wisdom Buddhism has also increasingly been described as strongly ethical devoted to nonviolence and dedicated to bringing an end to human suffering And because it places such a strong emphasis on rational analysis Buddhism is considered more compatible with science than the other great religions As such Buddhism has been embraced in the West both as an alternative religion and as an alternative to religion This volume provides a unique introduction to Buddhism by examining categories essential for a nuanced understanding of its traditions Each of the fifteen essays here shows students how a fundamental term from art to word illuminates the practice of Buddhism both in traditional Buddhist societies and in the realms of modernity Apart from Buddha the list of terms in this collection deliberately includes none that are intrinsic to the religion Instead the contributors explore terms that are important for many fields and that invite interdisciplinary reflection Through incisive discussions of topics ranging from practice power and pedagogy to ritual history sex and death the authors offer new directions for the understanding of Buddhism taking constructive and sometimes polemical positions in an effort both to demonstrate the shortcomings of assumptions about the religion and the potential power of revisionary approaches Following the tradition of *Critical Terms for Religious Studies* this volume is not only an invaluable resource for the classroom but one that belongs on the short list of essential books for anyone seriously interested in Buddhism and Asian religions

Religious Studies, Theology, and the University Linell E. Cady, Delwin Brown, 2002-10-10 Explores the relationship between religious studies and theology and the place of each in the modern secular university *Radical Interpretation in Religion* Nancy Frankenberry, 2002-09-19 Publisher Description **Intellectual History of Key Concepts** Gregory Adam Scott, Stefania Travagnin, 2020-05-05 The three volume project *Concepts and Methods for the Study of Chinese Religions* is a timely review of the history of the study of Chinese religions reconsiders the present state of analytical and methodological theories and initiates a new chapter in the methodology of the field itself The three volumes raise interdisciplinary and cross tradition debates and engage methodologies for the study of East Asian religions with Western voices in an active and constructive manner Within the overall project this volume addresses the intellectual history and formation of critical concepts that are foundational to the Chinese religious landscape These concepts include lineage scripture education discipline religion science and scientism sustainability law and rites and the religious sphere With these topics and approaches this volume serves as a reference for graduate students and scholars interested in Chinese religions the modern cultural and intellectual history of China including mainland China Taiwan Hong Kong and Chinese communities overseas intellectual and material history and the global academic discourse of critical concepts in the study of religions

Interreligious Comparisons in Religious Studies and Theology Perry Schmidt-Leukel, Andreas Nehring, 2016-07-14 Can religions be compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of

the particular often took precedence over a comparative perspective Interreligious Comparisons in Religious Studies and Theology questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced

Religion: Empirical Studies

Steven J. Sutcliffe, 2017-03-02 Treating religion as a fully social cultural historical and material field of practice this book presents a series of debates and positions on the nature and purpose of the Study of Religions or Religious Studies Offering an introductory guide to this influential and politically relevant academic field the contributors illustrate the diversity and theoretical viability of qualitative empirical methodologies in the study of religions The historical and cultural circumstances attending the emergence defence and future prospects of Religious Studies are documented drawing on theoretical material and case studies prepared within the context of the British Association for the Study of Religions BASR and making frequent reference to wider European North American and other international debates and critiques

Culture and Dialogue Gerald Cipriani, 2013-07-16 Vol 3 No 1 of *Culture and Dialogue* is a Special Issue in many ways This issue marks the takeover by a new publisher Because of contractual constraints and practical reasons the decision was made to continue our journey with Cambridge Scholars Publishing whose great enthusiasm foreshadows a bright future for the journal Our words of thanks however must also go to Airiti Press without which the journal would not have seen the light of day We are indebted to Airiti Press for having invested into the launch of a new journal with all the risks entailed and for their dedicated hard work We are most grateful for this The Journal was officially launched in March 2011 and has since produced four issues all of which focusing on a particular facet of dialogical practice within the field of culture be it philosophy art or politics Forthcoming issues will offer platforms to explore how dialogue impacts on the shaping of identity aesthetic meaning and historical significance One issue will also be devoted to how dialogue manifests itself in language This brings us to autumn 2015 after which other pressing themes will no doubt be proposed and treated In whatever case the thread remains the cultural forms of dialogue many of us know how critical ignorance about the nature of the dialogue can be in all fields at all levels Argentinian poet Antonio Porchia once wrote that To be someone is solitude Any self felt genius or world leading mortal will identify with this The solitude at stake is that of the one who fails to link with others or an Other by denying the possibility to

relinquish some of him or herself In fact the true someone is never alone the true someone never leads This is the message Culture and Dialogue is striving to convey express or analyse in its various forms across the humanities the arts and the social sciences Besides the Journal has always sought when possible to preserve a certain spirit of writing in addition to academic rigour and creativity a spirit that is undeniably fading in the midst of the publish or perish ethos adopted by advanced techno capitalist systems of education in some parts of the world Vol 3 No 1 is a Special Issue devoted to the theme of religion and dialogue Cosimo Zene of the School of Oriental and African Studies of the University of London kindly accepted our invitation to be the Guest Editor and our words of thanks must first go to him Cosimo has managed to bring together a range of outstanding essays of which the Journal can only be proud To various degrees and in different ways all essays discuss dialogue and religion or show dialogue at work in religious studies We are most grateful to all the authors who generously contributed to this Special Issue and therefore to the life of the Journal in alphabetical order T H Barrett Stephen Chan Jan Peter Hartung S an Hawthorne Catherine Heszer Tullio Lobetti Theodore Proferes and Cosimo Zene
