Critical Call Proceedings Eurocall Conference:

Critical CALL – Proceedings of the 2015 EUROCALL Conference, Padova, Italy Francesca Helm, Linda Bradley, Marta Guarda, Sylvie Thouësny, 2015-12-02 The theme of the conference this year was Critical CALL drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics The term critical has many possible interpretations and as Pennycook 2001 outlines has many concerns It was from these that we decided on the conference theme in particular the notion that we should question the assumptions that lie at the basis of our praxis ideas that have become naturalized and are not called into question Over 200 presentations were delivered in 68 different sessions both in English and Italian on topics related specifically to the theme and also more general CALL topics 94 of these were submitted as extended papers and appear in this volume of proceedings **CALL communities and culture – short papers from EUROCALL 2016** Salomi Papadima-Sophocleous, Linda Bradley, Sylvie Thouësny, 2016-12-18 The 23rd EUROCALL conference was organised by the Cyprus University of Technology Language Centre The theme of the conference was CALL communities and Culture Between the 24th and 27th August 2016 over 135 presentations were delivered and 27 posters were presented 84 of these presentations appear in this volume of selected peer reviewed short papers CALL and professionalisation: short papers from EUROCALL 2021 Naouel Zoghalmi, Cédric Brudermann, Cédric Sarré, Muriel Grosbois, Linda Bradley, Sylvie Thouësny, 2021-12-13 The 2021 EUROCALL conference engaged just under 250 speakers from 40 different countries Cnam Paris and Sorbonne Université joined forces to host and organise the event despite the challenging context due to the Covid 19 pandemic Originally programmed to be held on site in the heart of Paris France the EUROCALL organising team and executive committee agreed to opt for a blended and then for a fully online conference The theme of the 2021 EUROCALL conference was CALL Professionalisation This volume a selection of 54 short papers by some of the EUROCALL 2021 presenters offers a combination of research studies as well as practical examples fairly representative of the theme of the conference CALL and complexity – short papers from EUROCALL 2019 Fanny Meunier, Julie Van de Vyver, Linda Bradley, Sylvie Thouësny, 2019-12-09 The theme selected for the 2019 EuroCALL conference held in Louvain la Neuve was CALL and complexity As languages are known to be intrinsically and linguistically complex as are the many determinants of learning additional languages complexity is viewed as a challenge to be embraced collectively The 2019 conference allowed us to pay tribute to providers of CALL solutions and to recognize the complexity of their task We hope you will enjoy reading this volume as it offers a rich glimpse into the numerous debates that took place during EuroCALL 2019 We look forward to continuing those debates and discussions with you at the next EuroCALL conferences Proceedings of the 7th Celt International Conference (CIC 2024) Ekawati Marhaenny Dukut, Antonius Suratno, Heny Hartono, Radhika Gajjala, M. Mary Jayanthi, Christopher D. Gabriel, Hazel P. Atilano, 2024-12-31 This is an open access book The English language stands as a pivotal tool for fostering international dialogue facilitating the acquisition of scientific and technological knowledge

propelling economic growth and enabling participation in global competition Its prestigious role in a myriad of domains has significantly elevated the importance of English Language Teaching ELT Among the emerging approaches in ELT the integration of Artificial Intelligence AI particularly within the framework of Communicative Language Teaching CLT offers transformative potential To harness the benefits of AI in ELT substantial investments have been directed towards modernizing educational curricula revising English syllabi to incorporate AI driven principles and methodologies developing communication oriented textbooks crafting skill focused assessments and enhancing educators comprehension of novel language learning theories and pedagogies This comprehensive approach aims to elevate the effectiveness of ELT by aligning it with contemporary technological advancements However the widespread endorsement of CLT and AI integration is not without its challenges Despite the professed commitment of many educators to CLT resistance persists across both Eastern and Western educational contexts Cultural specialists and educators frequently debate the necessity appropriateness and efficacy of CLT and AI in language teaching This ongoing debate underscores several constraints including insufficient resources limited instructional time and a lack of linguistic and sociocultural competence among educators Consequently ELT pedagogies have evolved differently across various social cultural and economic environments reflecting the diverse contexts in which they are implemented The 7th Celt International Conference CIC aims to provide a critical platform for examining the complexities of integrating CLT and AI within the culturally nuanced landscapes of English Language Literature and Arts education The conference will explore how deeply ingrained cultural expectations can conflict with the adoption of innovative teaching methodologies and how such resilience can be navigated to enhance the educational experience We invite educators policymakers sociologists cultural experts business leaders artists and entrepreneurs to participate in the 2024 CIC Webinar This event themed Cultural Resilience and the Emergence of AI in the Teaching and Learning of English Language Literature and Arts will facilitate an exchange of experiences ideas and practices that address the intersection of tradition and innovation in the context of ELT Your participation will contribute to a richer understanding of how to effectively integrate AI in language education while respecting and adapting to cultural particularities Join us in this crucial dialogue and be part of shaping the future of English Language Literature and Arts education amidst the challenges and opportunities presented by AI and cultural resilience

Computer Corpora and Open Source Software for Language Learning: Emerging Research and Opportunities Posavec, Kristina, 2020-04-03 During the last four decades a corpus based approach to language teaching has become very significant Direct use of corpora in language pedagogy is limited by certain factors time the lecturer s knowledge and skills needed to analyze the corpus access to sources such as computers and appropriate computer tools or a combination of these factors The key to a successful corpus based approach is in the appropriate level of the lecturer s guidance or pedagogical mediation which depends on student age experience and prior knowledge It is therefore very important that lecturers be equipped with the necessary knowledge and

education for using and analyzing corpora on a daily basis Computer Corpora and Open Source Software for Language Learning Emerging Research and Opportunities is a cutting edge research publication that analyzes teacher experiences in implementing computer corpora into their language learning classrooms in order to formulate additional insights as to best strategies for integrating such tools that maximizes language learning efficiency in primary and secondary education Highlighting topics such as ICT tools language education and linguistics this book is ideal for academicians educators computer science teachers IT professionals researchers and students *Intersections in Simulation and Gaming* Anjum Naweed, Marcin Wardaszko, Elyssebeth Leigh, Sebastiaan Meijer, 2018-04-05 This book constitutes the refereed post conference proceedings of the 21st Annual Simulation Technology and Training Conference SimTecT 2016 and the 47th International Simulation and Gaming Association Conference ISAGA 2016 Held as Part of the First Australasian Simulation Congress ASC 2016 held in Melbourne VIC Australia in September 2016 The 28 revised full papers included in the volume were carefully reviewed and selected from 55 submissions They are organized in the following topical sections Making the grade Come to think of it From here to fidelity The name of the game and Ahead of the game **ICT-Based Assessment, Methods, and Programs in Tertiary Education** Meri Yilan, Serpil, Koruyan, Kasim, 2020-04-17 The use of information and communication technologies ICTs in education has revolutionized learning Shifting beyond traditional mode of education the integration of ICTs has become an advantage for students at tertiary education when used for the right purpose to enhance learning The use of technology brings forth a flexible and accessible mode of education and bridges the gap of learning across borders This enables students at tertiary level to have access to other universities and academic resource materials globally thereby expanding their knowledge Thus it is crucial to consider the development of technology in education as part of a comprehensive pedagogical framework and take into account new developments in ICTs ICT Based Assessment Methods and Programs in Tertiary Education is an essential research publication that provides relevant theoretical frameworks and recent empirical research findings on integrating ICTs in tertiary education to enhance learning and allow students to take more control of their learning Highlighting topics such as assessment language learning and e learning this book is ideal for teachers professionals academicians researchers administrators curriculum designers instructional designers and students

Frontiers in Technology-Mediated Language Learning Mark Peterson, Nasser Jabbari, 2023-12-12 In the context of continuing technological innovation the field of technology mediated foreign language learning is expanding rapidly Advances in digital technologies are providing researchers with opportunities to investigate a range of exciting new areas of research This edited volume is designed to showcase a selection of recent cutting edge innovations This publication incorporates chapters dealing with the use virtual reality social networking speech technologies and social semiotics Also included are chapters that focus on the relevant review work that is vital for progress in the field This publication provides an indispensable guide to a wide range of practitioners including language educators researchers graduate students learning

scientists and instructional designers Optimizing Online English Language Learning and Teaching Maria-del-Mar Suárez, Walaa M. El-Henawy, 2023-04-14 This book focuses on English as a Foreign Language EFL and provides advice on how to approach EFL teaching in the online context. Coronavirus has accelerated e learning significantly and has highlighted the need of appropriate web tools that will allow teachers to present their material either synchronously or asynchronously while also adequately assess their students. At the same time there is a need of tools that can engage the students and motivate them to actively participate in the lesson. With e learning being a rather new challenge for both teachers and students this book provides research and practice based chapters with strategies, techniques, approaches and methods which have proven to be successful in e learning environments maximizing their impact. Apart from presenting research results with strong pedagogical implications on online or blended English language learning and teaching the book also trains educators on utilizing online tools and managing online learning environments and platforms.
