Critical Theory Today A User Friendly Guide Second Edition:

Critical Theory Today Lois Tyson, 2012-09-10 Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear simple explanations and concrete examples of complex concepts making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader response theory, new criticism, structuralism, and semiotics; deconstruction, new historicism, cultural criticism, lesbian, gay, queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

Qualitative Research from Start to Finish, Second Edition Robert K. Yin, 2015-07-06 This book will help readers understand the practice of qualitative research whether they want to do it, teach it, or just learn about it. All the major research phases are encompassed: startup, design, data collection, analysis, and composing, including newly emerging trends. Numerous easy to read vignettes show how other scholars have successfully implemented specific procedures. Equally distinctive, the book presents qualitative research as an adaptive craft. The array of choices among different procedures and methods enables readers to customize their own studies and to accommodate different worldviews and genres. New to This Edition: Stronger discussion of different worldviews, e.g., constructivism, postpositivism, and pragmatism, and how they relate to different methodological choices. Clearer emphasis on doing a generalized qualitative study while acknowledging 12 specialized genres, e.g., action based research, arts based research, autoethnography, grounded

theory phenomenology and others Expanded discussions of different kinds of qualitative study samples and of mixed methods New ideas on how to avoid getting stalled when analyzing qualitative data Consideration of an additional way of concluding a qualitative study by taking action Pedagogical Features Chapters start with an abstract and end with a suggested exercise Key terms and concepts appear in boldface throughout the text and are listed in end of chapter recaps as well as in the book's glossary Sections within each chapter start with a preview box What you should learn from this section An appendix presents a semester or yearlong field based project

Critical Approaches to African Cinema Discourse Nwachukwu Frank Ukadike, 2014-02-27 Critical Approaches to African Cinema Discourse utilizes an interdisciplinary approach to lay bare the diversity and essence of African cinema discourse It is an anthology of historical reflections critical essays and interviews by film critics historians theorists and filmmakers that signifies a dialogue and engagement apropos the ideology and cultural politics of film production in Africa The contributors are extremely concerned not only with the history of African cinema but with its future and its potential This book then is not limited to the expansion of the discourse on African cinema but tries to approach the definition of the critical canon within the exigencies and manifestations of art and African sociopolitical practices The authors view these practices as an investment in a cultural imperative stemming from the quest to delineate how critical methodologies are derived from and shape contemporary historical and cultural practices Hence the contributions are less about the usual constrictive method of analysis and more about illustrating manifestations of an interrogative critical methodology that is certainly an offspring of an indigenous African critical cum cinematic culture and paradigms
