Crocodile And Cassowary Religious Art Of The Upper Sepik River New Guinea:

Crocodile and Cassowary Douglas Newton,1971 *The Manambu Language of East Sepik, Papua New Guinea*

Alexandra Aikhenvald,2010-06-17 This book is the first comprehensive description of the Manambu language of Papua New Guinea and is based entirely on the author's immersion fieldwork. Manambu belongs to the Ndu language family and is spoken by about 2 500 people in five villages: Avatip, Yawabak, Malu, Apapane and Yambon Yuanab in East Sepik Province, Ambunti district. Manambu can be considered an endangered language. The Manambu language has many unusual properties. Every noun is considered masculine or feminine. Feminine gender, which is unmarked, is associated with small size and round shape, and masculine gender with elongated shape, large size and importance. The Manambu culture is centered on ownership of personal names and is similar to that of the Iatmul described by Gregory Bateson. After an introductory account of the language and its speakers, Professor Aikhenvald devotes chapters to phonology, grammatical relations, word classes, gender, semantics, number, case, possession, derivation and compounding, pronouns, morphohology, verbs, mood and modality, negation, clause structure, pragmatics, discourse, semantics, the lexicon, current directions of change and genetic relationship to other languages. The description is presented in a clear style in a framework that will be comprehensible to all linguists and linguistically oriented anthropologists. Anthropology, Art, and Aesthetics Jeremy Coote,Anthony Shelton,1992

This collection of essays on anthropological approaches to art and aesthetics is the first in its field to be published for some time. It is finely balanced between developing existing traditions in the anthropology of art and charting new problematics and approaches. **Religions of Melanesia** Garry Trompf,2006-09-30

Melanesia boasts over one quarter of the world's distinct religions and presents the most complex religious panorama on earth. The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways. As the first bibliographical survey to comprehensively cover the entire region, *Religions of Melanesia* is an invaluable research aid for anyone interested in this growing field. Trompf's work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources. This survey covers 2188 entries organized topically and regionally. Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root. Regional coverage includes Irian Jaya, Papua New Guinea, Solomon Islands, Vanuatu, New Caledonia and Fiji. **Archaeology, Anthropology and Cult** Thomas Evan Levy,2016-09-17

The Chalcolithic period was formative in Near Eastern prehistory, being a time of fundamental social change in craft specialization, horticulture and temple life. Gilat, a low mound, semi-communal farming settlement in the Negev desert, is one of the few Chalcolithic sanctuary sites in the Southern Levant. *Archaeology, Anthropology and Cult* presents a critical analysis of the archaeological data from Gilat. The book brings together archaeological finds and anthropological theory to examine the role of religion in the evolution of society and the power of ritual in promoting change. This comprehensive volume, which includes artefact

drawings photographs maps and data tables will be of interest to students and scholars of ancient history anthropology archaeology as well as biblical and religious studies

Between Culture and Fantasy Gillian Gillison, 1993-07 The myths of the Gimi people of the Eastern Highlands of Papua New Guinea attribute the origin of death and misery to the incestuous desires of the first woman or man as if one sex or the other were guilty of the very first misdeed Working for years among the Gimi speaking their language anthropologist Gillian Gillison gained rare insight into these myths and their pervasive influence in the organization of social life Hers is a fascinating account of relations between the sexes and the role of myth in the transition between unconscious fantasy and cultural forms Gillison shows how the themes expressed in Gimi myths especially sexual hostility and an obsession with menstrual blood are dramatized in the elaborate public rituals that accompany marriage death and other life crises The separate myths of Gimi women and men seem to speak to one another to protest alter and enlarge upon myths of the other sex The sexes cast blame in the veiled imagery of myth and then play out their debate in joint rituals cooperating in shows of conflict and resolution that leave men undefeated and accord women the greater blame for misfortune
