Cross Border Entrepreneurship And Economic Development In Europe's Border Regions:

Cross-Border Entrepreneurship and Economic Development in Europe's Border Regions David Smallbone, Friederike Welter, Mirela Xheneti, 2012-01-01 This volume is concerned with entrepreneurship and economic development in Europe's border regions focusing on the effects of EU enlargement on these regions both within the EU and in neighbouring countries. Particular attention is paid to cross border entrepreneurial activity. Cross border cooperation involving entrepreneurs is attracting increasing attention in Europe as EU enlargement has increased the length of its borders with the former Soviet republics. The expert contributors highlight that border regions tend to be economically disadvantaged as a result of their peripherality which means that cross border cooperation for business purposes represents a potential development tool. This groundbreaking book contains an empirical evidence base drawn from regions in EU member states and the Newly Independent States as well as providing a conceptual base for informed policy development. This insightful book will prove invaluable for academics and students of entrepreneurship, economics, development and European studies. **The**

EU-Ukraine Association Agreement and Its Impacts on Cross-Border Cooperation Martin Lačný, 2021-08-03 The implementation of the Association Agreement (AA) including the Deep and Comprehensive Free Trade Area (DCFTA) between the EU and Ukraine has brought about a qualitatively new situation in the development of border regions and regional societies on both sides of the Schengen border. This volume's comparative study of the impacts of the AA and the DCFTA on borderlands in Ukraine, Poland, Slovakia, Hungary and Romania will contribute to the identification of new opportunities for cross border cooperation and policy considerations for its further development. **Transformational Entrepreneurship**

Vanessa Ratten, Paul Jones, 2018-08-06 To achieve progress in society and business practices more entrepreneurship is needed to encourage action and enhance social capital in society and transformational entrepreneurship may be the key. Transformational entrepreneurship offers a way of integrating sustainability practices whilst focusing on sustainable future trends. This book discusses how transformational entrepreneurship uses novel business practices to reduce inequality in the marketplace and how it transforms society through creative solutions that enable change. The book provides useful insight into better understanding this emerging concept. **Globalization, Regionalization and Cross-Border Regions** M.

Perkmann, N. Sum, 2002-07-12 Cross border regions are newly emerging social spaces stretching across national borders. Globalization makes national borders more permeable and leads to a rearrangement of economic and political interactions. This is particularly pronounced within supra regional blocs featuring specific internal border regimes. The ensuing opportunities are increasingly seized to create border spanning discourses and institutions. This is illustrated in the book by a range of experts analyzing cross border regions in Europe, America, East Asia and Africa. *Geography, Open Innovation and Entrepreneurship* Urban Gråsjö, Charlie Karlsson, Iréne Bernhard, 2018-06-29 Developed countries must be incredibly innovative to secure incomes and welfare so that they may successfully compete against international rivals. Kallscheuer, 2017-12-15 This book explores the nature of regions and how they function particularly at the local and micro level Whilst recent years have seen a resurgence in debates around the roles which regions can play in development the focus has tended to be on macro regional institutions such as the EU ASEAN ECOWAS or MERCOSUR In contrast this book offers a nuanced analysis of the important field of sub regionalism and sub national cross border cooperation Region Making and Cross Border Cooperation takes a fresh look at both theoretical and empirical approaches to region making through cooperation activities at the micro level across national borders in Europe Southeast Asia Latin America Africa and the Middle East The book aims to explore the role that institutional dynamics play at the micro level in shaping local and global ties investigate what the formal and informal integration factors are that bolster regionalism and regionalization processes and to clarify to what extent and under what conditions cooperation at the micro level can be instrumental to solving common problems Scholars and students within politics sociology geography and economics would find this book an important guide to regionalism at a micro local level perspective Entrepreneurship in Central and Eastern Europe Tõnis Mets, Arnis Sauka, Danica Purg, 2018-03-14 The process of the transition to a market oriented economy for countries from Central and Eastern Europe CEE and the Commonwealth of Independent States CIS started some 25 years ago A new technology base triggered the fast growth of new investments into intangible assets by global economic leaders at the beginning of the 1990s providing the basis for a move towards a knowledge economy During the past 25 years entrepreneurs in CEE and the CIS have reshaped traditional industries and created new industries combining innovative ideas with traditional competencies Yet we still do not know very much about how and why companies led by entrepreneurs develop how they expand globally and what the role of new knowledge and innovation is in the internationalization process Understanding the pathways of entrepreneurial development especially growth through internationalization is important for the overall development of countries in transition and beyond Entrepreneurship in Central and Eastern Europe Development through Internationalization provides an overview of entrepreneurship in a range of important emerging markets This book aims to fill the gap in the literature by providing up to date data and case based evidence With coverage of a range of national firms from countries including Belarus Estonia Hungary Poland Latvia Lithuania Serbia Slovakia Slovenia and Ukraine this book will be vital supplementary reading around international entrepreneurship and essential reading for those studying the business environment in this vital emerging market
