Architecture of the World's Major Religions Thomas

Barrie,2020-08-25 In *Architecture of the World's Major Religions: An Essay on Themes, Differences and Similarities* Thomas Barrie presents and explains religious architecture in ways that challenge predominant presumptions regarding its aesthetic, formal, spatial and scenographic elements. Two positions frame its narrative: religious architecture is an amalgam of aesthetic, social, political, cultural, economic and doctrinal elements, and these elements are materialized in often very different ways in the world's principal religions. Central to the work's theoretical approaches is the communicative and discursive agency of religious architecture and the multisensory and ritual spaces it provides to create and deliver content. Subsequently, mythical and scriptural foundations and symbols of ecclesiastical and political power are of equal interest to formal organizations of thresholds, paths, courts and centers and celestial and geometric alignments. Moreover, it is equally concerned with the aesthetic, visual and material cultures and the transcendent realms they were designed to evoke, as it is with the kinesthetic, the dynamic and multisensory experience of place and the tangible experiences of the body's interactions with architecture.

Religion as Orientation and Transformation Jan-Olav Henriksen,2017-05-12 Religions are not primarily expressed in people's heads and their thoughts but in what they do. People use religious symbols in order to orientate or change themselves. In this way, religion is related to all realms of human life. Jan Olav Henriksen shows that only against this backdrop can we understand the role of religions in human life. Book jacket The Wiley Blackwell Companion to Religion

and Materiality Vasudha Narayanan,2020-04-27 The Wiley Blackwell Companion to Religion and Materiality provides a thoughtfully organized, inclusive and vibrant project of the multiple ways in which religion and materiality intersect. The contributions explore the way that religion is shaped by and has shaped the material world, embedding beliefs, doctrines and texts into social and cultural contexts of production, circulation and consumption. The Companion not only contains scholarly essays but has an accompanying website to demonstrate the work of performers, architects and expressive artists ranging from musicians and dancers to religious practitioners. These examples offer specific illustrations of the interplay of religion and materiality in everyday life. The project is organized from a comparative perspective, highlighting examples and case studies from traditions originating in both East and West. To summarize the volume brings together the leading figures, theories and ideas in the field in a systematic and comprehensive way. Offers an interdisciplinary approach drawing together religious studies, anthropology, archaeology, history, sociology, geography, the cognitive sciences, ecology and media studies. Takes a comparative perspective covering all the major faith traditions. **Sowing the Sacred** Lloyd Daniel Barba,2022

Sowing the Sacred traces the development of Mexican American Pentecostalism among farmworkers from the 1910s to the 1960s, drawing on oral histories, photographs taken by farmworkers and material from new archival collections to tell an intimate story of sacred space making in a context of labor exploitation.
