Most of these writers have been active since 1960 and they reflect a wide range of experiences and perspectives in their works. Each entry is written by an expert contributor and includes biography, a review of existing criticism, a lengthier analysis of specific works, and a selected bibliography of primary and secondary sources. Handbook of the English Novel of the Twentieth and Twenty-First Centuries Christoph Reinfandt, 2017-06-12. The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty-first century status of eccentric eminence in new media environments. Systematic chapters address The English Novel as a Distinctly Modern Genre, The Novel in the Economy, Genres, Gender, performativity, masculinities, feminism, queer, and The Burden of Representation, class, and ethnicity. Extended contextualized close readings of more than twenty key texts from Joseph Conrad's *Heart of Darkness* (1899) to Tom McCarthy's *Satin Island* (2015) supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives.

Radical Fictions Nick Bentley, 2007. Nick Bentley takes a fresh look at English fiction produced in the 1950s. By looking at a range of authors, he shows that the novel of the period was far more diverse and formally experimental than previous accounts have suggested.

Cultures of London Charlotte Grant, Alistair Robinson, 2023-12-14. From its origin as the Roman city of Londinium through to its latest incarnation as a super-diverse World City in the twenty-first century, London's history and culture has been shaped by migration. This book expresses and celebrates the plurality of the capital's cultures and affirms the importance of migration in the making of the modern city through thirty-three short essays written by academics, artists, broadcasters, and curators. Subjects range from the mediaeval to the contemporary, buildings and institutions, individuals and communities, objects, visual art, street performances, and literary texts. Some contributors focus on famous people and places like Shakespeare and St Paul's, while others explore less well-known subjects like the Free German League of Culture (1939-46) or Ignatius Sancho, the eighteenth-century musician, grocer, and man of letters. It is not only London's cultures which are diverse; migration is also plural. This book engages with the very many human migrations from across the globe and within the British Isles that have taken place over the last two thousand years, as well as with the movements of plants, animals, and ideologies from other countries and continents, and the movement of natural resources and man-made toxins into and through the city. Composed of a vivid collection of snapshots, the volume offers a kaleidoscopic vision of the city and provides new insights into the successive migrant communities that have come to London and made it their own.
