Critical Realism and Spirituality Mervyn Hartwig, Jamie Morgan, 2013-03-01 Critical Realism and Spirituality contextualizes delineates explores and critiques the turn to spirituality and religion in critical realism which has been under way since the mid 1990s as well as telling its story It provides incisive discussion and analysis of the following broad questions How does critical realism allow and facilitate the resolution of problems in the area of comparative religion Can it help you to justify your own faith or belief What are the implications of the new philosophy of meta Reality for traditional religious studies and how we organize and conduct our lives A range of distinguished critical realists theological critical realists and scholars working with related approaches Roland Benedikter Roy Bhaskar Terry Eagleton Mervyn Hartwig Alister McGrath Markus Molz Jamie Morgan Andrew Wright and others bring their talents to bear on this task While their personal beliefs span the whole spectrum from theism to atheism they are united by the desire to open up a space for dialogue of one kind or another intra faith inter faith and or extra faith promoting mutual understanding respect and the unity and capability for collective emancipatory action on a global scale that humanity is so sorely in need of This book is therefore essential reading for students and academics alike in Religious Studies Theology and Philosophy **Religious Education and Critical Realism** Andrew Wright, 2015-11-19 Religious Education and Critical Realism Knowledge Reality and Religious Literacy seeks to bring the enterprise of religious education in schools colleges and universities into conversation with the philosophy of Critical Realism This book addresses the problem not of the substance of our primal beliefs about the ultimate nature of reality and our place in the ultimate order of things but of the process through which we might attend to questions of substance in more attentive reasonable responsible and intelligent ways This book unpacks the impact of modern and post modern thought on key topics whilst also generating a new critically realistic vision Offering an account of the relationship between Religious Education and Critical Realism this book is essential reading for students scholars and practitioners interested in philosophy theology and education **Critical Realism and Spirituality** Mervyn Hartwig, Jamie Morgan, 2013-03-01 Critical Realism and Spirituality contextualizes delineates explores and critiques the turn to spirituality and religion in critical realism which has been under way since the mid 1990s as well as telling its story It provides incisive discussion and analysis of the following broad questions How does critical realism allow and facilitate the resolution of problems in the area of comparative religion Can it help you to justify your own faith or belief What are the implications of the new philosophy of meta Reality for traditional religious studies and how we organize and conduct our lives A range of distinguished critical realists theological critical realists and scholars working with related approaches Roland Benedikter Roy Bhaskar Terry Eagleton Mervyn Hartwig Alister McGrath Markus Molz Jamie Morgan Andrew Wright and others bring their talents to bear on this task While their personal beliefs span the whole spectrum from theism to atheism they are united by the desire to open up a space for dialogue of one kind or another intra faith inter faith and or extra faith

promoting mutual understanding respect and the unity and capability for collective emancipatory action on a global scale that humanity is so sorely in need of This book is therefore essential reading for students and academics alike in Religious Studies Theology and Philosophy **Christianity and Critical Realism** Andrew Wright,2013-05-07 One of the key achievements of critical realism has been to expose the modernist myth of universal reason which holds that authentic knowledge claims must be objectively pure uncontaminated by the subjectivity of local place specific time and particular culture Wright aims to address the lack of any substantial and sustained engagement between critical realism and theological critical realism with particular regard to a the distinctive ontological claims of Christianity b their epistemic warrant and intellectual legitimacy and c scrutiny of the primary source of the ontological claims of Christianity namely the historical figure of Jesus of Nazareth As such it functions as a prolegomena to a much needed wider debate guided by the underlabouring services of critical realism between Christianity and various other religious and secular worldviews This important new text will help stimulate a debate that has yet to get out of first gear This book will appeal to academics graduate and post graduate students especially but also Christian clergy ministers and informed laity and members of the general public concerned with the nature of religion and its place in contemporary society A Hermeneutics of Religious Education David Aldridge,2015-10-22 What does it mean to understand a religion How should the concept of truth be addressed in the contemporary classroom What is the proper subject matter of religious education and how does it relate to other subjects and the school curriculum as a whole Despite the prevalence of literature on these subjects these issues are far from resolved and consequently the place and nature of religious education in our schools is precarious and confused A Hermeneutics of Religious Education argues that although the tradition of philosophical hermeneutics has transformed both educational thought and the academic discipline of religious studies the literature of religious education pedagogy has paid only limited attention to these developments To engage with them fully entails a transformation of our understanding of religious education and its importance in a curriculum of the twenty first century **Against the Spiritual Turn** Sean Creaven,2014-04-08 The argument presented in this book is that the recent spiritual trajectory of Roy Bhaskar s work upon which he first embarked with the publication of his From East to West undermines the fundamental achievements of his earlier work The problem with Bhaskar s new philosophical system Transcendental Dialectical Critical Realism or simply Meta Reality from the critical realist Marxist perspective endorsed here is that it marks both a departure from and a negation of the earlier concerns of Bhaskar to develop a realist philosophy of science and under labour for an emancipatory materialist socio historical science The end result is a meta philosophy which is irrealist speculative under theorized internally self contradictory and which cannot provide philosophical guidance to liberatory social practices In opposition to theist ontological logics more generally including the rather more rational theism presented by Margaret Archer Andrew Collier and Doug Porpora the argument of this book is that the earth bound materialist dialectics of the classical Marxist tradition

and the naturalistic humanism these dialectics under labour on the terrain of socio historical being offer a much more promising way forward for critical realist theory and for liberatory politics and ethics **Faithful Science** Alistair J.

McKitterick, 2022-03-17 This thesis studies the impact of teaching intelligent design to evangelical students Science is often presented as a reason why some find sharing their faith difficult in a secular culture teaching the science of intelligent design enables Christians to initiate conversations and overcome obstacles with those whose worldview is more Darwinian and materialist The professional doctoral research employs both action research and practical theology Lin Norton s pedagogical action research provides the structure for the qualitative research and thematic analysis showing that students find learning about intelligent design empowering for evangelism Richard Osmer s model of practical theology enables an interdisciplinary reflection on how intelligent design challenges Western secular culture Intelligent design is seen as the most integrative of all the different ways of relating science and theology Theologically teaching intelligent design is like teaching a modern parable to contemporary society and just like the Gospel parables some respond with faith and some reject it Evangelical students find learning about it both liberating and empowering in their ability to share their faith more confidently with others especially in schools and youth groups **Religion in the Age of Re-Globalization** Roland Benedikter, 2021-12-13

increasingly popular approach to the philosophy of science that provides a holistic alternative to both positivism and postmodernism This text sets out the central concepts arguments and understandings in critical realism and relates them to social scientific practice In addition to answering the question what is critical realism the authors consider critical realism in light of two crucial themes in contemporary society neoliberalism and climate change which run as common threads throughout the chapters While some introductions to the topic focus exclusively on the work of Roy Bhaskar critical realism s

best known proponent this text covers a much wider range of thinkers and social researchers and also features Key Concept boxes and CR in Action boxes throughout to aid the reader through this complex yet rewarding subject This text is the perfect entry point for all those studying critical realism for the first time or for those seeking to re familiarise themselves with this approach Whether you re studying critical realism as part of a broader course on the philosophy of science or seeking to apply critical realist methods to a particular research project this book is essential reading for the social sciences humanities and beyond
