Malaysia-Singapore: Fifty Years of Contentions 1965-2015 Kadir Mohamad, 2015-01-21 This book offers an interesting and informative account of the often fractious account of two countries in the heart of Southeast Asia It outlines the primary issues that plagued relations between Malaysia and Singapore in the last fifty years and the political diplomatic and legal initiatives taken to address them The author gives a first person narrative of the seemingly endless behind the scenes episodes that have brought the love hate relationship to where they are today He further delves into the vast reservoir of information on the rocky bilateral relationship to provide a reasonable argument over why Malaysia has behaved as it has since 1965 Exhaustive records of among others minutes letters and documents are brought to light to substantiate the Malaysian view in relation to issues of contention with Singapore Coming from an insider with more than four eventful decades in the Malaysian Foreign Service it will be an eye opener for many

Culture and Customs of Singapore and Malaysia Jaime Koh, Stephanie Ho Ph.D., 2009-06-22 Explore the contemporary culture and traditional customs of Singapore and Malaysia in a volume that belongs on shelves in every high school and public library *Culture and Customs of Singapore and Malaysia* examines all aspects of contemporary life in these two geographically close and

historically and culturally connected nations starting with the people fighting to maintain a balance between the new and the traditional. The book shows how religion has evolved through time in the two nations and examines how literature and traditional crafts thrive today. It highlights the performing arts and entertainment, noting how Western culture has influenced and shaped new customs. Housing and architecture, both modern and traditional, are discussed along with cuisine and fashion. Students can use the book to analyze gender roles and family life. They can also read about the ways in which festivals are celebrated and can compare and contrast leisure activities of Singapore and Malaysia with their own. The volume concludes with a look to the future of these two evolving countries, both moving toward modernity but still holding on to the traditions of the past.

Lieutenant Kurosawa's Errand Boy Warran Kalasegaran, Epigram Books Fiction Prize 2016 Longlist. During the Japanese Occupation of Singapore, an eight-year-old Tamil boy is separated from his father, forced to work for the Kempeitai, and renamed Nanban. From Lieutenant Kurosawa Takeshi, he learns their language and customs, studies their martial arts, and prays to their Emperor. While watching the cruelty with which the Imperial Army rules Singapore, Nanban becomes just as ruthless to survive. Twenty years later, a young misfit strives to make a successful living as a seamstress. Papatti is swept up in her ambition, trying to drum up crowds and get featured in the national newspapers, when she meets a cunning politician and an eager dockworker who both try to win her attention. Then she is faced with a harrowing loss and is forced to find her place in a new world. Over decades of tempestuous history, the lives of Nanban, Papatti, and Lieutenant Kurosawa intertwine in surprising and powerful ways, and beg the question: how is reconciliation possible in the face of war and heartbreak?

Intraco: Blazing A Trail Overseas For Singapore? Faizal Bin Yahya, 2014-12-23. Through the lens of the now defunct Singapore government-linked company GLC called International Trading Company INTRACO, this book offers a historical analysis of the country's economic development strategy. Since its Independence in 1965, GLCs like INTRACO were introduced by the former Deputy Prime Minister, the late Dr Goh Keng Swee, a pioneer of Singapore's remarkable transformation from Third World to First, to fulfil strategic economic objectives. As the country's lifeblood has been entreport trade, INTRACO was created to blaze a trail overseas by facilitating commercial ties behind the Iron Curtain during the Cold War. The eventual divestment of INTRACO highlights the same way in which the Singaporean state is acutely responsive to changing global economic and geopolitical trends. This book is useful to academics, students, and the interested lay reader for its insights into the role of the state in economic development in post-colonial countries.

Cultural Sociology of the Middle East, Asia, and Africa Andrea L. Stanton, Edward Ramsamy, Peter J. Seybolt, Carolyn M. Elliott, 2012-01-05. In our age of globalization and multiculturalism, it has never been more important for Americans to understand and appreciate foreign cultures and how people live, love, and learn in areas of the world unfamiliar to most U.S. students and the general public. The four volumes in our cultural sociology reference encyclopedia take a step forward in this endeavor by presenting concise information on those regions likely to be most foreign to U.S. students: the Middle East, Asia, and Africa. The intent is to

convey what daily life is like for people in these selected regions It is hoped entries within these volumes will aid readers in efforts to understand the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions *No Miracle* Mitchell Wigdor,2016-05-23 *No Miracle* examines the role of institutions in bridging the digital divide between rich and poor nations and what that means for the country s integration into a global economy Shifting the debate from whether institutions are important to economic development to which institutions are important and how to build them Mitchell Wigdor expertly addresses fundamental shortcomings in the existing development literature by identifying specific institutions that mediate the relationship between Information and Communications Technology ICT and economic growth In doing so he challenges those concerned with development to shift their gaze from whether institutions are important to economic development to which institutions might be the focus of government efforts and how to build them Detailed case studies of the economic development strategies of Singapore and Malaysia from 1960 demonstrate that institution building and economic development may be as much about process as the specific policies governments pursue Written in accessible non technical language this book should be read by everyone concerned with economic growth both in less economically developed countries and the more prosperous including those in government international organizations NGOs universities policy makers and the private sector
