1.0 Chapter overview

(Issued: 05-25-18, Effective: 05-25-18)

This chapter describes the OCPM's purpose and organization. It also describes how to navigate the OCPM, and when and how to cite an OCPM provision as an authority in an action issued by an OMBIA adjudicator.

OMBIA receives a variety of appeals, including appeals of Medicare Part A and B minor determinations, Part C organization determinations, Part D coverage determinations, and at-risk determinations,¹ and SSA eligibility/enrollment, late enrollment penalty, and IRMAA determinations. This chapter describes when a specific OCPM provision may be used to apply to all or certain types of appeals, and describes OCPM conventions for citing to statutes, regulatory, and other applicable authorities.

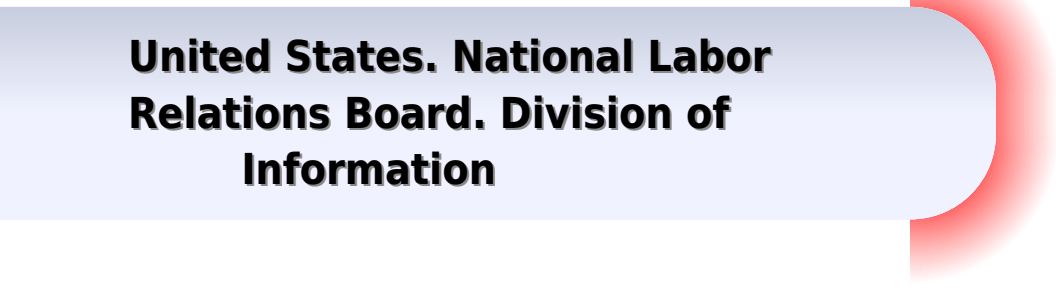

In addition, this chapter describes the process for updating an OCPM chapter, as well as how to determine when a revision was issued or became effective, and how to access prior versions of a chapter.

Caution: When taking the actions described in this chapter, ensure that all PHI, PII, and Federal Tax information is secured and only disclosed to authorized individuals (internally, those who need to know).
