Ethnicity and Criminal Justice in the Era of Mass Incarceration Martin Guevara Urbina, Sofía Espinoza

Álvarez, 2017-02-27 ETHNICITY AND CRIMINAL JUSTICE IN THE ERA OF MASS INCARCERATION A Critical Reader on the Latino Experience is designed as a Latino reader in criminal justice covering a much broader spectrum of the Latino experience in criminal justice and society while giving readers a broad overview of the Latino experience in a single book. Considering the shifting trends in demographics and the current state of the criminal justice system along with the current political climate, this book is timely and of critical significance for the academic, political, and social arena. The authors report sound evidence that testifies to a historical legacy of violence, brutality, manipulation, oppression, marginalization, prejudice, discrimination, power, and control, and to white America's continued fear about ethnic and racial minorities, a movement that continues in the twenty-first century as we have been witnessing during the 2015-2016 presidential race, highly charged with anti-immigrant and anti-Mexican political rhetoric. A central objective of this book is to demystify and expose the ways in which ideas of ethnicity, race, gender, and class uphold the functioning and legitimacy of the criminal justice system. In this mission, rather than attempting to develop a single explanation for the Latino experience in policing, the courts, and the penal system, this book presents a variety of studies and perspectives that illustrate alternative ways of interpreting crime, punishment, safety, equality, and justice. The findings reveal that race, ethnicity, gender, class, and several other variables continue to play a significant role in the legal decision-making process. With the social control from police brutality to immigration discourse reaching unprecedented levels, the book will have broad appeal for students, police officers, advocates, activists, attorneys, the media, and the general public. *Capital Punishment* United States. Congress. House. Committee on the Judiciary. Subcommittee on Criminal Justice, 1987. TWENTY-FIRST CENTURY DYNAMICS OF MULTICULTURALISM

Martin Guevara Urbina, 2014-09-19 In the twenty-first century, few studies have delineated the U.S. multiculturalism story beyond black and white to include the truths and realities of other Americans over time, resulting in highly skewed academic publications. While the white experience and, to a lesser extent, the black experience has been well documented, the brown experience, for instance, has been neglected, minimized, or excluded from the pages of history. Clearly, there has been a great need for researchers to examine the multiple intertwining forces of historical and contemporary movements defining, shaping, and governing the everyday experience of America's people. In the face of centuries of manipulation, exploitation, oppression, and sometimes brutal violence, blacks, browns, reds, yellows, and others are still here fighting not only for ethnic and racial tolerance but also for equality, justice, respect, and human dignity. In fact, despite the long legacy of hate, violence, and oppression against America's most disadvantaged communities, particularly undocumented people, the minority population will continue to grow, and with pressing demographic shifts, ethnic and racial minorities will soon become the new face of America. In delineating the dynamics of multiculturalism over the years, contributing authors illustrate that the United States is nowhere near a post-racial society, and thus we must prioritize equality, justice, and multiculturalism if the U.S. is, in fact,

going to have a balanced system Globally the United States must actively engage in significant and positive social transformation in the new millennium if the U S is going to be situated and reflective of a post racial society in the twenty first century Twenty First Century Dynamics of Multiculturalism will be of benefit to professionals in the fields of sociology history minority studies Mexican American Chicano studies ethnic Latino studies law political science and also those concerned with sociolegal issues

Race, Class, and the Death Penalty Howard W. Allen, Jerome M. Clubb, 2009-01-01 In *Race Class and the Death Penalty* Howard W Allen and Jerome M Clubb examine historical trends in the use of capital punishment in the United States Employing empirical data the authors explore how frequently the death penalty has been used and how its frequency of use has changed where the death penalty was used most often the offenses charged and the characteristics of the executed Not surprisingly their findings indicate that minority groups particularly African Americans and those of lower social and economic status in general have been executed in disproportionate numbers The authors conclude that while the use of the death penalty has progressively declined and the range of capital offenses has narrowed disparities in the use of capital punishment between social groups and regions that appeared in the colonial period have persisted into the twenty first century

ETHNIC REALITIES OF MEXICAN AMERICANS Martin Guevara Urbina, Joel E. Vela, Juan O. Sanchez, 2014-03-01 The goal of this book is to examine the ethnic experience of the Mexican American community in the United States from colonialism to twenty first century globalization The authors unearth evidence that reveals how historically white ideology combined with science law and the American imagination has been strategically used as a mechanism to intimidate manipulate oppress control dominate and silence Mexican Americans ethnic racial minorities and poor whites A theoretical and philosophical overview is presented focusing on the repressive practice against Mexicans that resulted in violence brutality vigilantism executions and mass expulsions The Mexican experience under hooded America is explored including religion the Ku Klux Klan and the Mexican American Civil Rights Movement Local state and federal laws are documented often in conflict with one another including the Homeland Security program

that continues to result in detentions and deportations The authors examine the continuing argument of citizenship that has been used to legally exclude Mexican children from the educational system and thereby being characterized as not fit for the classroom nor entitled to an equitable education Segregation and integration in the classroom is discussed featuring examples of court cases As documented throughout the book American law is a constant reminder of the pervasive ideology of the historical racial supremacy socially defined and enforced ethnic inferiority and the rejection of positive social change equality and justice that continues to persist in the United States The book is extensively referenced and is intended for professionals in the fields of sociology history ethnic studies Mexican American Chicano studies law and political science and also those concerned with sociolegal issues Description Here
