Capitalist Crusader Fighting Poverty Through Economic Growth:

Capitalist Crusader Herman Mashaba, 2015 When Nelson Mandela became South Africa's president in 1994 Herman Mashaba thought his struggle for personal and economic freedom was over the battle won Twenty one years later he has had to question that assumption as his freedoms are eroded and economic controls tighten As a successful business person Mashaba says he can no longer be silent on the state of the South African economy In Capitalist Crusader he describes the changes in his political affiliations and maps out the route South Africa needs to follow to escape entrenched unemployment poverty and inequality

Black Economic Empowerment Phinda Mzwakhe Madi, 2015-11-30 Twenty years after the introduction of BEE Phinda Madi believes it's time to reflect on its success Clear trends can now be discerned and there are numerous lessons to be learned He contends there is an unfortunate narrative that is gaining traction in South Africa generally and in the corporate world in particular that BEE has been nothing but a smoke and mirror initiative towards oligarchy hence the chosen title BEE 20 years later The Baby and The Bathwater As the title suggests there is a tendency to want to throw the baby out with the bathwater His book argues that we need to make a clear distinction between the bouncing baby and the at times dirty bathwater This book puts forward a very frank clinical and balanced argument on how this distinction needs to be made as well as why and how we should ensure the baby both survives and thrives going forward whilst getting rid of the ugly side of BEE the dirty bathwater But more importantly he examines how to restore the credibility of this process so it truly and genuinely moves away from just being seen as the enrichment of the few and lives up to its true promise The economic empowerment of the many This is the book that will ignite the change in BEE in South Africa *The D-Word: Perspectives on Democracy in Tumultuous Times* Christi van der Westhuizen, Siphiwe Dube, Zwelethu

Jolobe, 2024-03-12 This curated collection engages international debates about the current challenges facing democracy Given the proliferation of crisis literature on democracy this volume finds its distinctive niche in presenting perspectives from the global margins that bridge disciplinary sectoral national and conceptual divides South Africans enter into conversation with scholars and activists from elsewhere in the Global South including the Arab world and the rest of Africa and from the European periphery Insights on democracy are offered from a diversity of perspectives and voices spanning philosophy socio legal and political studies sociology public administration and queer and gender studies and activism The book will be of interest to academics activists policymakers development planners and the general public The D Word is a timely contribution addressing burning questions are current contestations about the relevance of democracy due to systemic flaws in how it is constituted received practised and even imagined and can the democratic project be salvaged The book's unique approach brings a variety of lenses to bear on the prospects for democracy The critical reflections it contains make for an enriching broad canvas of ideas Professor Sandy Africa University of Pretoria **Beyond Neoliberalism** James

Petras, Henry Veltmeyer, 2016-04-15 The world is at the crossroads of social change in the vortex of forces that are bringing

about a different world a post neoliberal state This groundbreaking book lays out an analysis of the dynamics and contradictions of capitalism in the twenty first century These dynamics of forces are traced out in developments across the world in the Arab Spring of North Africa and the Middle East in Cuba and elsewhere in Latin America in the United States and in Asia The forces released by a system in crisis can be mobilized in different ways and directions The focus of the book is on the strategic responses to the systemic crisis As the authors tell it these dynamics concern three worldviews and strategic responses The Davos Consensus focuses on the virtues of the free market and deregulated capitalism as it represents the interests of the global ruling class The post Washington Consensus concerns the need to give capital a human face and establish a more inclusive form of development and global governance In addition to these two visions of the future and projects the authors identify an emerging radical consensus on the need to move beyond capitalism as well as neoliberalism

The Dilemmas of Social Democracies Howard Richards, Joanna Swanger, 2008-01-01 The Dilemmas of Social Democracies seeks to advance the eradication of poverty and the ethical construction of social democracy and sustainable peace Howard Richards and Joanna Swanger argue that the reason that capitalism resists transformation and that social democracy is so hard to achieve is because of the philosophical and institutional underpinnings_ the constitutive rules_ of capitalism the book therefore explores the historical origins of these rules their implications for blocking progress toward social justice and how they can be improved

Freedom in the World: 2001-2002 Adrian Karatnycky, 2018-01-18 Freedom in the World is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 192 nations and 17 related and disputed territories

Development, Poverty of Culture, and Social Policy B. Mohan, 2011-02-14 This book offers an interdisciplinary analysis of complex issues constructs and interventions that deal with human social problems with global implications It posits social development theory and practice in a critically important context challenging the scientific orthodoxy of our times

Race and Liberty in America Jonathan Bean, 2009-07-17 The history of civil rights in the United States is usually analyzed and interpreted through the lenses of modern conservatism and progressive liberalism In Race and Liberty in America The Essential Reader author Jonathan Bean argues that the historical record does not conveniently fit into either of these categories and that knowledge of the American classical liberal tradition is required to gain a more accurate understanding of the past present and future of civil liberties in the nation By assembling and contextualizing classic documents from the Declaration of Independence to the Civil Rights Act of 1964 to the 2007 U S Supreme Court decision banning school assignment by race Bean demonstrates that classical liberalism differs from progressive liberalism in emphasizing individual freedom Christianity the racial neutrality of the Constitution complete color blindness and free market capitalism A comprehensive and vital resource for scholars and students of civil liberties Race and Liberty in America presents a wealth of primary sources that trace the evolution of civil rights throughout U S history

The Founders' Second Amendment Stephen P. Halbrook, 2019-01-15 Stephen P Halbrook s

The Founders Second Amendment is the first book length account of the origins of the Second Amendment based on the Founders own statements as found in newspapers correspondence debates and resolutions Mr Halbrook investigates the period from 1768 to 1826 from the last years of British rule and the American Revolution through to the adoption of the Constitution and the Bill of Rights and the passing of the Founders generation His book offers the most comprehensive analysis of the arguments behind the drafting and adoption of the Second Amendment and the intentions of the men who created it

Property Rights B. Benson, 2010-06-07 In an effort to understand the reasons for and consequences of the political backlash to the U S Supreme Court decision *Kelo v New London* this book brings together a diverse group of scholars and practitioners who explore the uses and abuses of eminent domain and regulatory takings
