Car Troubles Transport And Society:

Car Troubles Dr Arlene Tigar McLaren, Dr Jim Conley, 2012-11-28 *Car Troubles* central premise is that the car as the dominant mode of travel needs to be problematized. It examines a wide range of issues that are central to automobility by situating it within social economic and political contexts and by combining social theory specific case studies and policy oriented analysis. With an international team of contributors the book provides a coherent and comprehensive analysis of the global phenomenon of automobility from the Anglo world to the cases in China and Chile and all the elements that relate to it.

Mobilities and Foucault Katharina Manderscheid, Tim Schwanen, David Tyfield, 2017-10-02 Although Foucault's work has been employed and embraced enthusiastically by some mobilities scholars, discussion across these two traditions to date has mostly been partial and unsystematic. Yet Foucault's work can make critical contributions for example to thinking about governing mobilities in contemporary societies while conversely mobilities research opens up new perspectives on Foucault. In combination these bodies of work can illuminate issues as diverse as the greater interdependencies between mobility systems e.g. transport, tourism, trade, internet use, the proliferation of the undesired mobilities of viruses, natural phenomena like fire, or what is taken to be criminality and other seemingly inevitable by products of globalisation, the perceived threats to desirable forms of mobility as constituted by climate change, peak oil and energy security and terrorism and warfare and the increased popularity of logics of governance premised on choice, responsibilisation and the re-coding of phenomena in economic terms under neo-liberalism. Against this background this book brings together the first major collection of contributions from across the social sciences with a shared interest in both mobilities and Foucauldian thinking. This book was published as a special issue of *Mobilities*.

Car Troubles Jim Conley, 2016-04-15 *Car Troubles* central premise is that the car as the dominant mode of travel needs to be problematized. Everyday Mobilities in Nineteenth- and Twentieth-Century British Diaries Colin G. Pooley, Marilyn E. Pooley, 2022-10-19 This book uses diaries written by ordinary British people over the past two centuries to examine and explain the nature and extent of everyday mobilities such as travel to school to work to shop or to visit friends and to explore the meanings attached to these mobilities. After a critical evaluation of diary writing the ways in which mobility changed over time, interacted with new forms of transport technology and varied from place to place are examined. Further chapters focus on the roles of family and life course, gender, income and class and journey purpose in shaping mobilities including immobility. It is argued that easy and frequent everyday mobilities were experienced by most of the diarists studied that travellers could exercise their own agency to adapt easily to new forms of transport technology but that factors such as gender, class and

location also created significant mobility inequalities

The Routledge Handbook of Mobilities Peter Adey, David Bissell, Kevin Hannam, Peter Merriman, Mimi Sheller, 2014-01-10 The 21st century seems to be on the move perhaps even more so than the last With cheap travel and more than two billion cars projected worldwide for 2030 And yet all this mobility is happening incredibly unevenly at different paces and intensities with varying impacts and consequences to the extent that life on the move might be actually quite difficult to sustain environmentally socially and ethically As a result mobility has become a keyword of the social sciences delineating a new domain of concepts approaches methodologies and techniques which seek to understand the character and quality of these trends This Handbook explores and critically evaluates the debates approaches controversies and methodologies inherent to this rapidly expanding discipline It brings together leading specialists from range of backgrounds and geographical regions to provide an authoritative and comprehensive overview of this field conveying cutting edge research in an accessible way whilst giving detailed grounding in the evolution of past debates on mobilities It illustrates disciplinary trends and pathways from migration studies and transport history to communications research featuring methodological innovations and developments and conceptual histories from feminist theory to tourist studies It explores the dominant figures of mobility from children to soldiers and the mobility impaired the disparate materialities of mobility such as flows of water and waste to the vectors of viruses key infrastructures such as logistics systems to the informal services of megacity slums and the important mobility events around which our world turns from going on vacation to the commute to the catastrophic disruption of mobility systems The text is forward thinking projecting the future of mobilities as they might be lived transformed and studied and possibly brought to an end International in focus the book transcends disciplinary and national boundaries to explore mobilities as they are understood from different perspectives different fields countries and standpoints This is an invaluable resource for all those with an interest in mobility across disciplinary boundaries and areas of study

The Car-dependent Society Hans Jeekel, 2016-04-01 Cars are essential in modern Western societies Some even say that our modern lifestyles would have been impossible without cars The dependency of Western societies on our cars is a unique situation in history but does not get much attention car use is seen as just a normal situation The population at large knows the risks knows the disadvantages experiences the advantages and keeps driving Using data from Western Europe this book examines three key themes frequent car use car dependence and the future of passenger car mobility in societies In conclusion in modern Western risk societies more attention needs to be paid to car dependence its driving forces its advantages its problems and challenges for the future

Transport, Mobility, and the Production of Urban Space Julie Cidell, David Prytherch, 2015-05-01 The contemporary urban experience is defined by flow and structured by circulating people objects and energy Geographers have long provided key insights into transportation systems But today concerns for

social justice and sustainability motivate new critical approaches to mobilities Reimagining the city prompts an important question How best to rethink urban geographies of transport and mobility This original book explores connections in theory and practice between transport geographies and new mobilities in the production of urban space It provides a broad introduction to intersecting perspectives of urban geography transport geography and mobilities studies on urban places of flows Diverse international and leading edge contributions reinterpret everyday intersections as nodes urban corridors as links cities and regions as networks and the discourses and imaginaries that frame the politics and experiences of mobility The chapters illuminate nearly all aspects of urban transport from street regulation and roadway planning intended and subversive practices of car and truck drivers planning and promotion of mass transit investments and the restructuring of freight and logistics networks Together these offer a unique and important contribution for social scientists planners and others interested in the politics of the city on the move **Motor Transport** ,1924 **State and Society in**

Post-Socialist Economies J. Pickles,2008-01-17 State and Society in Post Socialist Economies focuses on the reform economies of post socialist Europe It looks at how various projects of communism that emerged in have been and are still being dismantled and recomposed by alternative visions institutions and practices of capitalist market economies and democratic polities

Car Troubles Transport And Society: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Car Troubles Transport And Society : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
