Cardiovascular Rehabilitation A Comprehensive Approach:

Cardiovascular Rehabilitation Lysle H. Peterson, 1983 Abstract A reference text prepared by medical authorities in their respective fields for physicians caring for cardiovascular disease CVD patients focuses on a wide variety of practical aspects concerning cardiovascular diseases and the use of therapeutic nutritional and exercise modalities The material was gleaned from experiences with over 700 referred patients 2000 exercise stress tests over 30 000 hours of exercise therapy and from existing medical psychological and nutritional management approaches The 15 chapters of the text include exercise principles in CVD rehabilitation patient responses to exercise testing and therapy psychological aspects and disorders of CVD and their treatment nutritional management in CVD rehabilitation surgical treatment risk evaluation health care costs blood pressure and pulse responses to exercise data summaries from a 274 patient study and the rationale of dietary management in a comprehensive CVD program A detailed summary of the text is appended Numerous tabular data and illustrations are presented throughout the text wz

Cardiovascular Prevention and Rehabilitation in Practice Jennifer Jones, John Buckley, Gill Furze, Gail Sheppard, 2020-03-20 The authoritative clinical handbook promoting excellence and best practice Cardiovascular Prevention and Rehabilitation in Practice is a comprehensive practitioner focused clinical handbook which provides internationally applicable evidence based standards of good practice Edited and written by a multidisciplinary team of experts from the British Association for Cardiovascular Prevention and Rehabilitation BACPR this book is invaluable for practitioners helping people with heart disease return to health The text provides an overview of research findings examines the core components of cardiac rehabilitation and discusses how to support healthier lifestyles and reduce the risks of recurrence Now in its second edition this textbook has been fully revised to incorporate recent clinical evidence and align with current national and international guidelines Increased emphasis is placed on an integrated approach to cardiac rehabilitation programmes whilst six specified standards and six core components are presented to promote sustainable health outcomes Describes how cardiovascular prevention and rehabilitation programmes can be delivered to meet standards of good practice Covers a broad range of topics including promoting health behaviour change to improve lifestyle risk factors supporting psycho social health managing medical risk factors and how to develop long term health strategies Emphasises the importance of early programme commencement with assessment and reassessment of patient goals and outcomes and gives examples of strategies to achieve these Discusses the role of programme audit and certification of meeting minimum standards of practice Looks to the future and how delivery of cardiovascular prevention and rehabilitation programmes internationally will need to meet common challenges Cardiovascular Prevention and Rehabilitation in Practice is an indispensable resource for all health professionals involved in cardiac rehabilitation and cardiovascular disease prevention

Cardiovascular Prevention and Rehabilitation Joep Perk, Peter Mathes, Helmut Gohlke, Catherine Monpère, Irene Hellemans, Hannah McGee, Philippe Sellier, Hugo Saner, 2007-05-26 This book is a timely and thorough review of prevention

lifestyle counseling and rehabilitation for cardiologists and all physicians and other health professionals in cardiac rehabilitation teams The Editors have gathered over 60 experts from all parts of the globe Each highlights the role of cardiac rehabilitation and preventative cardiology from exercise testing and training through nutrition smoking cessation behavioral and social support to adapted programs for newer groups with specific demands The book emphasizes the organizational aspects of cardiac rehabilitation including quality assurance and economic evaluation Cardiac Rehabilitation as Secondary Prevention United States. Cardiac Rehabilitation Guideline Panel,1995 *Cardiac Rehabilitation* William Kraus,Steven Keteyian,2007-06-15 The era of cardiac rehabilitation in the United States dates back at least thirty years when Herman Hellerstein at Case Western Reserve Andy Wallace at Duke and Ken Cooper in Dallas envisioned that a comprehensive lifestyle approach to the rehabilitation and prevention of patients having had a cardiac event would potentially yield great benefits for the individual patient and the health care system Until that time the thought of vigorous exercise in the cardiac patient soon after an event was close to anathema One of us WEK was introduced to Herman Hellerstein in Cleveland in the late 1960 s when his father sought medical opinion from him for a cardiac condition WEK was introduced to Andy Wallace in 1979 by which time the latter had started a multidisciplinary geographically regional cardiac rehabilitation program at Duke based upon consultations with Hellerstein and Cooper By then cardiac rehabilitation was progressing beyond the vision of exercise only and since then the concept of cardiac rehabilitation has grown into the comprehensive multidisciplinary program that we know today and that we attempt to describe in this volume The practice of cardiac rehabilitation has grown and metamorphosed in the last thirty years in parallel with the growth and metamorphosis of the practice of cardiovascular medicine During the formative stages of cardiac rehabilitation the use of coronary care units was in its infancy The coronary artery bypass operation was less than ten years old The LIMA bypass had not been invented
